## **ASUR Announces Total Passenger Traffic for January 2021**

**On a YoY basis, passenger traffic decreased 44.1% in Mexico, 40.1% in Puerto Rico and 45.4% in Colombia**

**Mexico City, February 4, 2021 - Grupo Aeroportuario del Sureste, S.A.B. de C.V. (NYSE: ASR; BMV: ASUR)** ASUR, a leading international airport group with operations in Mexico, the U.S. and Colombia, today announced that total passenger traffic for January 2021 decreased 43.7% when compared to January 2020. Passenger traffic decreased 44.1% in Mexico, 40.1% in Puerto Rico and 45.4% in Colombia, impacted by severe downturns in business and leisure travel stemming from the COVID-19 pandemic.

The United States Centers for Disease Control and Prevention (CDC) has expanded the requirement for negative COVID-19 tests to all air passengers entering the US as of January 26, 2021. According to the CDC, pre- and post-trip testing is a critical layer in slowing the introduction and spread of COVID-19. This strategy is consistent with the current phase of the pandemic and intended to more effectively protect the health of US citizens. Within three days of departure to the United States, passengers are required to obtain a viral test and provide the airline on which they are traveling written documentation of their negative test result or documentation that evidences that they have recovered from COVID-19. Additionally, passengers must get tested again 3 to 5 days after arrival in the US and self-quarantine for 7 days after their arrival. Beginning January 7, 2021, Canada has established similar testing requirements for air passengers travelling to the country. Subsequently, the Canadian government suspended flights between Canada, Mexico and the Caribbean until April 30, 2021.

This passenger traffic announcement reflects comparisons between January 1 through January 31, 2021 and from January 1 through January 31, 2020. Transit and general aviation passengers are excluded from traffic measurements for Mexico and Colombia.
