Annual Report of the Chief Executive Officer of
Grupo Aeroportuario del Sureste, S.A.B. de C.V.
corresponding to year 2022

**GRUPO AEROPORTUARIO DEL SURESTE, S.A.B. DE C.V.
REPORT OF THE CHIEF EXECUTIVE OFFICER**

Mexico City, 1st March 2023

To the Board of Directors of
Grupo Aeroportuario del Sureste, S.A.B. de C.V.

Dear Sirs:

I hereby present my annual report on the activities, financial situation, results and ongoing projects of Grupo Aeroportuario del Sureste, S.A.B. de C.V. (“the Company” or “ASUR”) during the year ending the 31st of December 2022, in accordance with the provisions of Article 44, Section XI, of the Mexican Stock Market Law, Article 172 of the Mexican Corporations Act and the Company bylaws.

It should be noted that this report also corresponds to the companies Aeropuerto de Cancún, S.A. de C.V., Aeropuerto de Cozumel, S.A. de C.V., Aeropuerto de Huatulco, S.A. de C.V., Aeropuerto de Mérida, S.A. de C.V., Aeropuerto de Minatitlán, S.A. de C.V., Aeropuerto de Oaxaca, S.A. de C.V., Aeropuerto de Tapachula, S.A. de C.V., Aeropuerto de Veracruz, S.A. de C.V., Aeropuerto de Villahermosa, S.A. de C.V., Servicios Aeroportuarios del Sureste, S.A. de C.V., RH ASUR, S.A. de C.V., ASUR FBO, S.A. de C.V., Cancún Airport Services, S.A. de C.V., Caribbean Logistics, S.A. de C.V., Cargo R.F., S.A. de C.V., Aerostar Airport Holdings, LLC, and Sociedad Operadora de Aeropuertos de Centro Norte, S.A., which are subsidiaries in which the Company holds the majority of the shares and in which the value of equity is equivalent to more than 20% of the net worth of ASUR according to the latest profit and loss statement of said subsidiaries.

Following a review of the information with regard to the operations of the Company and its subsidiaries during the period between the 1st of January and the 31st of December 2022 please take note of the Company’s main activities, projects and financial results during said period:

The revenues of ASUR and its subsidiaries, including revenues from construction services, increased to \$25.314 billion pesos, representing a rise of 34.8% compared to the 12-month period ending the 31st of December 2021; over the same period, revenues without construction services increased to \$22.621 billion pesos by 44.7%.

Operating costs including the cost of construction services increased by 8.2% to \$10.962 billion pesos, and without construction services rose by 18.5% to \$8.269 billion pesos.

This resulted in a majority net income for the Company of \$9.987 billion pesos in the year ending the 31st of December 2022, including the Company’s 60% share in the airport in San Juan, Puerto Rico, and its 100% ownership of the six airports in Colombia, representing an increase of 66.9% in comparison to 2021.

Attached to this report are: **(i)** a Consolidated Balance Sheet that shows the financial situation of the Company at the end of the year, **(ii)** a Consolidated Profit and Loss Statement that shows the results obtained by the Company during the year, **(iii)** a Consolidated Statement of Variations in Accounting

Equity that describes the changes in the financial situation of the Company during the year, (iv) a Consolidated Cash Flow Statement that describes the changes in the Company's cash position during the year, (v) a Consolidated Statement of Changes in Financial Position that also describes the changes in the Company's cash position during the year, and (vi) complementary notes that clarify the information referred to in points (i) to (iv) above.

The fixed assets used by the airports to carry out ASUR's activities are divided into two parts: airside assets, comprised of runways, taxiways, aircraft parking aprons for commercial aviation, aircraft parking aprons for general aviation, hangars, perimeter roadway and fencing, control tower, safety zones, facilities for the firefighting and rescue corps, etc.; and landside assets, comprising terminal buildings, car parks, access roads, etc. We have continued to implement a policy of sustained investment in all these assets, taking special care to maintain them adequately, in order to comply with the safety and quality standards required by the authorities. In addition, we have made substantial investments in order to increase capacity and improve service quality.

Since the 28th of September 2000, ASUR has traded the shares representing its capital stock on the stock markets in New York and Mexico City, the New York Stock Exchange and the *Bolsa Mexicana de Valores*.

During the first quarter of 2022, the highest price of the Company's shares in Mexico City was \$453.71 pesos and the highest price of the Company's American Depositary Shares (each of which represents 10 shares) in New York was \$223.74 dollars. The lowest prices during the same period were \$395.10 pesos per share and \$184.36 dollars per ADS, respectively.

During the second quarter of 2022, the highest price of the Company's shares in Mexico City was \$450.20 pesos and the highest price of the Company's American Depositary Shares (each of which represents 10 shares) in New York was \$227.11 dollars. The lowest prices during the same period were \$405.19 pesos per share and \$196.39 dollars per ADS, respectively.

During the third quarter of 2022, the highest price of the Company's shares in Mexico City was \$449.15 pesos and the highest price of the Company's American Depositary Shares (each of which represents 10 shares) in New York was \$223.45 dollars. The lowest prices during the same period were \$379.76 pesos per share and \$184.24 dollars per ADS, respectively.

During the fourth quarter of 2022, the highest price of the Company's shares in Mexico City was \$495.06 pesos and the highest price of the Company's American Depositary Shares (each of which represents 10 shares) in New York was \$253.15 dollars. The lowest prices during the same period were \$408.34 pesos per share and \$203.90 dollars per ADS, respectively.

Please also take formal note that, as of the 1st of March 2023, I am aware of the existence of two shareholders that own stakes of more than 10% (ten per cent) in the total capital stock of the Company: entities directly owned and controlled by Fernando Chico Pardo owned 19.41% of our total capital stock; and entities directly owned and controlled by Grupo ADO, S.A. de C.V. owned 16.13% of our total capital stock. The remaining shares in the Company's capital stock are divided between different public investors, both within Mexico and abroad.

As you will be aware, no dividend was approved at the Ordinary Annual General Meeting of the Company shareholders held on the 22nd of April 2021. The Ordinary Annual General Meeting of the Company shareholders held on the 20th of April 2022 approved an ordinary dividend, to be paid out from accumulated earnings, in the amount of \$9.03 pesos (nine pesos and three cents, Mexican legal tender) per share, as well as an extraordinary dividend in the amount of \$6.00 (six pesos and zero cents, Mexican legal tender) per share, for a total dividend in the amount of \$15.03 (fifteen pesos and three cents, Mexican legal tender) per share.

With nothing further for the time being, I am at your disposal for any additional information.

Yours faithfully,

Adolfo Castro Rivas
Chief Executive Officer of
Grupo Aeroportuario del Sureste, S.A.B. de C.V.

Item I a)

Report of the External Auditors of
Grupo Aeroportuario del Sureste, S.A.B. de C.V.
corresponding to year 2022

Report of Independent Auditors

To the Shareholders and Directors of
Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Opinion

We have audited the consolidated financial statements of Grupo Aeroportuario del Sureste, S. A. B. de C. V. and its subsidiaries (Company or Group), which comprise the consolidated statement of financial position as of December 31, 2022, and the consolidated statements of comprehensive income, of changes in equity and of cash flows for the year then ended and the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Company in accordance with the Professional Code of Ethics of Mexican Institute of Public Accountants together with other requirements applicable to our audit in Mexico. We have fulfilled our other ethical responsibilities in accordance with those requirements and code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>1. Compliance with the maximum rate stated in concession agreements</p> <p>As discussed in Notes 19.1, 18.1.3, 3.1.1 and 3.1.4 to the consolidated financial statements, the rules included in the concession agreements applicable to the airports operated by the Company in Mexico require compliance with an annual rate limit for each airport. This annual rate limit represents the maximum annual revenue per workload unit (one passenger or 100 kg of cargo) that can be recorded by the Company for the services rendered that are subject to these regulated prices. The concession agreements provide no guarantees the airports will receive the maximum amounts permitted.</p> <p>If the Company records regulated revenue in excess of the maximum annual rate, the government authorities could revoke one or more of the Company's concessions in Mexico. Consequently, management regularly monitors regulated revenue in Mexico so as not to exceed regulatory limits.</p> <p>Our audit was focused on recognition of regulated revenue in Mexico subject to the maximum annual rate, mainly due to its significance (\$10,358 million Mexican pesos for the period ended on December 31, 2022) and due to the complexity involved in both, applying the calculation established in the concession agreements for determining maximum annual rates and obtaining the necessary data.</p> <p>In particular, we focused our audit effort on:</p> <ul style="list-style-type: none"> The process involved in calculating the maximum annual rate and the data used for such purpose, for instance, passenger traffic and cargo statistics. 	<p>We evaluated and considered the design and operating effectiveness of internal controls (including Information Technology controls) related to regulated revenue in Mexico, the determination and authorization by management of the maximum annual rate and the corresponding discounts. As part of our audit, we performed the following procedures:</p> <ol style="list-style-type: none"> For a sample of daily transactions recorded by each of the airports, we compared the information provided by the airlines in the "inbound and outbound manifests" with the information recorded in the operating system used by the airports. We specifically perform this comparison for the following data: number of passengers required to pay TUA and details of other airport services subject to regulated rates. For a sample of monthly transactions, we obtained a reconciliation of the Company's accounting records to the information contained in the operating system used by the airports. We compared the data used for calculating the maximum annual rate, such as: The National Producer Price Index, excluding oil, with the index published by the National Statistics and Geography Institute (INEGI by its acronym in Spanish); the passenger traffic and cargo statistics with the operating systems used by airports; the rates in force for airport services, the TUA and the exchange rate with the figures published in the Official Gazette (DOF, by its acronym in Spanish).

Key audit matter	How our audit addressed the key audit matter
<ul style="list-style-type: none"> The authorization of changes on the airport usage rates (TUA for its acronym in Spanish) and other airport services rates. 	<ol style="list-style-type: none"> We independently reformed the maximum annual rate calculation considering the applicable rules and information and data previously mentioned and compared the results with the ones determined by the Company. For a sample of transactions, we compared the rates used by the Company in the calculation of airport regulated revenue, included in the operating system used by the airports, with the rates in force, for each airport, published in the DOF. We compared the revenue recorded by the Company related to domestic and international TUA and baggage inspection, with a reasonable test we performed, wherein we multiplied the total number of passengers times the authorized rates.

Other information

Management is responsible for the other information presented, which comprises the annual report presented to the Comisión Nacional Bancaria y de Valores (CNBV), which will be issued after the date of this auditor’s report. The additional information does not include the consolidated financial statements and our auditor’s report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information not yet received, we will issue the report required by the CNBV and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and, if required, describe the issue in our report.

Responsibilities of management and those charged with governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS and for such internal control as Management determines necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

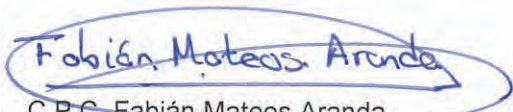

- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company and subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Company and subsidiaries audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annual Report of the Board of Directors of
Grupo Aeroportuario del Sureste, S.A.B. de C.V.
corresponding to year 2022

**GRUPO AEROPORTUARIO DEL SURESTE, S.A.B. DE C.V.
REPORT OF THE BOARD OF DIRECTORS TO
THE ANNUAL GENERAL MEETING OF THE SHAREHOLDERS**

Opinion of the Board of Directors Regarding the Information Contained in the Annual Report of the Chief Executive Officer:

In relation to the report presented by the Chief Executive Officer (“the Report”) in accordance with the provisions of Section XI of Article 44 of the Mexican Stock Market Law, Article 172 of the Mexican Corporations Act and Section IV, point (c) of Article 28 of the Mexican Stock Market Law, after having held various meetings with the Chief Executive Officer and the other relevant executive officers of the Company regarding the contents of the Report; after having reviewed the information and the supporting documentation presented to the Board of Directors by the Chief Executive Officer and the other relevant executive officers; and after having listened to the explanations provided by them in relation to the Report, and taking into consideration the opinion of the Audit and Corporate Practices Committee, the Board of Directors considers that the Report presented to this shareholders’ meeting is adequate and sufficient, and truthfully, reasonably and satisfactorily reflects the financial situation of the Company, the results of its operations, the changes in its stockholder equity and the changes in its financial situation as of the 31st of December 2022. We consequently recommend that the information presented by the Chief Executive Officer be approved by the shareholders.

Opinion of the Board of Directors Concerning the Accounting and Reporting Policies and Criteria Applied by the Company:

We have reviewed the financial statements of the Company as of the 31st of December 2022, the auditors’ report and the accounting policies employed in the preparation of the financial statements, including, as applicable, the modifications thereto and the corresponding effects. The external auditors, who are responsible for expressing their opinion regarding the fairness of the financial statements of the Company and its subsidiaries and their compliance with the financial reporting regulations applicable in Mexico, have issued their comments. As a result of this review, the external auditors recommended that the Board of Directors approve the financial statements for presentation to the Ordinary Annual Meeting of the Company Shareholders.

Similarly, the Board of Directors considers that the accounting and reporting policies and criteria applied by the Company and its subsidiaries, Aeropuerto de Cancún, S.A. de C.V., Aeropuerto de Cozumel, S.A. de C.V., Aeropuerto de Huatulco, S.A. de C.V., Aeropuerto de Mérida, S.A. de C.V., Aeropuerto de Minatitlán, S.A. de C.V., Aeropuerto de Oaxaca, S.A. de C.V., Aeropuerto de Tapachula, S.A. de C.V., Aeropuerto de Veracruz, S.A. de C.V., Aeropuerto de Villahermosa, S.A. de C.V., Servicios Aeroportuarios del Sureste, S.A. de C.V., RH ASUR, S.A. de C.V., ASUR FBO, S.A. de C.V., Cancún Airport Services, S.A. de C.V., Caribbean Logistics, S.A. de C.V., Cargo R.F., S.A. de C.V., Aerostar Airport Holdings, LLC, and Sociedad Operadora de Aeropuertos de Centro Norte, S.A. adhere to the financial reporting regulations applicable in Mexico, are adequate and sufficient under the circumstances and are applied on a consistent basis.

The audited financial statements reasonably represent the financial situation of the Company and its subsidiaries, Aeropuerto de Cancún, S.A. de C.V., Aeropuerto de Cozumel, S.A. de C.V., Aeropuerto de Huatulco, S.A. de C.V., Aeropuerto de Mérida, S.A. de C.V., Aeropuerto de Minatitlán, S.A. de C.V., Aeropuerto de Oaxaca, S.A. de C.V., Aeropuerto de Tapachula, S.A. de C.V., Aeropuerto de Veracruz, S.A. de C.V., Aeropuerto de Villahermosa, S.A. de C.V., Servicios Aeroportuarios del Sureste, S.A. de C.V., RH ASUR, S.A. de C.V., ASUR FBO, S.A. de C.V., Cancún Airport Services, S.A. de C.V., Caribbean Logistics, S.A. de C.V., Cargo R.F., S.A. de C.V., Aerostar Airport Holdings, LLC, and Sociedad

Note 1 - History and company activities:

Grupo Aeroportuario del Sureste, S. A. B. de C. V. (ASUR or the Company) is a Mexican company that was incorporated in April 1998 as a wholly owned entity of the federal public government to administrate, operate, maintain and exploit nine airports in the Southeast of Mexico. The nine airports are located in the following cities: Cancun, Cozumel, Merida, Huatulco, Oaxaca, Veracruz, Villahermosa, Tapachula and Minatitlan. The Corporate Headquarters of the Company are located in Bosque de Alisos 47-A, piso 4, Col. Bosques de las Lomas, Mexico City.

In June 1998, the Mexican Department of Communications and Transportation (SCT by its Spanish acronym) granted to the Company's subsidiaries concessions to administer, operate, exploit and develop the nine Southeast airports over a period of 50 years commencing on November 1, 1998. The term of the concessions may be extended by the parties under certain circumstances, in accordance with Article 15 of the Airports Law that establishes, among other things: 1) if the conditions set forth in the respective title have been met; 2) if requested before the last five years of the concession's validity begun, and 3) accept the new conditions.

Notwithstanding the Company's rights to administrate, operate, exploit and develop and, if applicable, build the nine airports pursuant to the Mexican General Law of National Assets, all the land, furniture and permanent fixed assets located in the airports are the property of the Mexican federal government. Upon expiration of the Company's concessions, these assets, including any improvements made during the term of the concessions, automatically revert to the Mexican federal government.

The Company, through its subsidiary Aeropuerto de Cancún, S. A. de C. V. (Cancún Airport), has a 60% equity interest in Aerostar Airport Holdings, LLC (Aerostar), which operates and manages the Luis Muñoz Marín International Airport (LMM Airport) located in San Juan de Puerto Rico and 100% of the shares of Sociedad Operadora de Aeropuertos Centro Norte, S. A. (Airplan), domiciled in the city of Medellín, Colombia, operates and manages the following six airports through a single concession (contract 8000011-OK): Olaya Herrera Medellín Airport, José María Córdova of Rionegro Airport, El Caraño of Quibdó Airport, Airport Los Garzones of Montería, Antonio Roldán Betancourt of Carepa Airport and Las Brujas of Corozal Airport.

As of December 31, 2022 and 2021, the Company's capital stock is represented by the large investment public 60.63% and 66.54%, which is placed on the New York (NYSE) and Mexico (BMV), Investments and Técnicas Aeroportuarias, S. A. P. I. de C. V. (ITA) 7.65%, CHPAF Holdings, S. A. P. I. de C. V. 19.41% and 13.51%, respectively in 2022 and 2021 and Inversiones Productivas Kierke, S. A. de C. V. 12.31% in both years. The shareholding is divided between different shareholders, without there being a person or a particular group that directly controls the Company.

Recovery from the COVID-19 effects on the Company

Due to the declaration of COVID-19 as a global health emergency, the Company had an impact on its daily operations, mainly in the year 2020, as a consequence of the social distancing requirements, the recommendations of the authorities to stay at home and government restrictions. During 2021 the Company presented a recovery compared to the previous year, highlighting the following:

- a. Mexico - In 2021, there was a recovery in passenger traffic compared to 2020. The total increase in passengers in 2021 in Mexico was 76.28% compared to 2020. In 2022, the increase in passenger traffic in Mexico continued.
- b. Colombia - In 2021, there was a recovery in passenger traffic compared to 2020. The total increase in passengers in 2021 was 149.82% compared to 2020. In 2022, the increase in passenger traffic in Colombia continued.
- c. Puerto Rico - In 2021, there was a recovery in passenger traffic compared to 2020. The total increase in passengers in 2021 was 99.83% compared to 2020. In 2022, the increase in passenger traffic in Puerto Rico continued.

The most significant effects on the financial statements have been overcome and during 2022 there were no adverse impacts caused by the COVID-19 pandemic.

Note 2 - Basis for preparation:

Preparation of the non-consolidated financial statements

The accompanying non-consolidated financial statements have been specifically prepared for its presentation to the Shareholders' Meeting and to comply with the legal provisions which the Company is subject to as independent legal entity; therefore, the permanent investments in subsidiaries and associates are measured through the equity method. Separately, the Company issued consolidated financial statements, which should be referred to in order to analyze the consolidated financial position and the Company's results and its subsidiaries as an economic entity.

Application of Mexican Financial Reporting Standards (NIF) and Supplementary NIF

The accompanying non-consolidated financial statements at December 31, 2022 and 2021, fairly meet the provisions of NIF to show a fair presentation of the Company's non-consolidated financial position. NIF state that the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), International Financial Reporting Interpretations Committee (IFRIC) and the Interpretations Committee (SIC) are supplementary part of NIF, when the absence of NIF requires it.

NIF and Interpretations to NIF and Improvements, issued by Mexican Financial Reporting Standards Board (CINIF by its Spanish acronym), which became effective as of January 1, 2022 and 2021 did not have relevant effects over the financial information presented by the Company.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

New NIF 2022

NIF C-15 "Impairment in the value of long-lived assets" Establishes the valuation, presentation and disclosure standards, highlighting the following, among others: a) new examples of evidence are added to assess whether there is impairment, b) the requirement to use a net selling price is changed to fair value less costs of disposal to carry out impairment tests; c) establishes the option of using estimates of future cash flows and a discount rate, in real terms and d) the calculation of impairment through the perpetuity value of intangible assets with indefinite useful lives is removed, modifying the impairment test.

Early adoption of this standard must be done prospectively.

Mejoras a las NIF 2022

- NIF B-7 "Business acquisitions". Incorporates the accounting treatment of business acquisitions among entities under common control, establishing the "book value" method as the appropriate method for the recognition of these transactions, except when a) the acquirer has non-controlling shareholders whose interests are affected by the acquisition, and/of b) the acquirer is listed on a stock exchange. (*)
- NIF B-15 "Foreign currency translation". Confirms the practical expedient for not converting financial statements from the recording currency to the functional currency, provided they are financial statements exclusively for the Company's legal and tax purposes which a) are individual entities with no subsidiaries or parent company, or users that require complete financial statements prepared considering the effects of the conversion to functional currency, or b) are subsidiaries, associates or joint ventures with no users that require complete financial statements prepared considering the effects of the conversion to functional currency (*)
- NIF D-3 "Employee benefits". Incorporates the procedure for the determination of the deferred ESPS and the incurred ESPS rate, when the entity considers the payment of ESPS will be at a rate lower than the current legal rate (*)

Also, the following MFRS were modified, generating accounting changes and whose main modifications relate to the elimination of certain disclosure requirements

- NIF B-1 "Accounting changes and corrections of error" (*)
- NIF B-10 "Inflation Effects" (*)
- NIF B-17 "Determination of fair value" (*)
- NIF C-6 "Property, plant and equipment" (*)

(*) Modifications originated by the improvements to these NIF 2022 will come into force for the years beginning on January 1, 2022; early application is allowed for fiscal year 2021. Accounting changes that arise, if any, must be recognized through prospective application.

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

Modifications were also made to the MFRS, which do not generate accounting changes, consequently, no effective date is established. Those modifications imply only adjustments to the drafting and incorporation of certain concepts:

- B-3 "Statement of comprehensive income" (**)
- NIF B-10 "Inflation Effects" (**)
- NIF B-15 "Foreign currency translation" (**)
- NIF C-3 "Accounts receivable" (**)
- NIF C-16 "Impairment of receivable financial instruments" (**)
- NIF B-6 "Statements of Financial Position" (**)
- NIF B-1 "Accounting changes and corrections of errors" (**)
- CIRCULAR 44 – Accounting treatment for Investment Units is abrogated. (**)

(**) Modifications originated from improvements to these NIF 2022 do not give place to accounting changes, consequently, an effective date is not establish for these improvements.

New NIF and IAS 2021

NIF C-17 "Investment properties" Establishes the valuation, presentation and disclosure standards for the recognition of investment properties in the financial statements of an entity. Opens the possibility that investment properties are valued at the entity's choice, at their acquisition cost or at their fair value

Eliminates the supplementary nature of International Accounting Standard (IAS) 40 "Investment Properties" and repeals Circular 55, Supplementary Application of IAS 40.

Improvements to NIF 2021

NIF B-1 "Accounting changes and error corrections". Establishes that when the cumulative effects of an accounting change or the correction of an error for all the previous periods impacted cannot be determined, a prospective application must be performed.

NIF C-2 "Investment in derivative financial instruments". Allows the exercise of an irrevocable option to recognize investments in certain trading equity financial instruments that are not traded in the short term, to recognize changes in fair value through the Other Comprehensive Income (OCI).

NIF B-3 "Statement of income", NIF C-2 "Investment in financial instruments", NIF C-19 "Payable Financial Instruments" and NIF C-20 "Financial instruments to collect principal and interest". Establish that gain and losses for withdrawals received or granted should be presented as part of operating income.

Non- consolidated financial statements authorization

As mentioned in Note 12 the accompanying non-consolidated financial statements and their notes were authorized, for their issuance on March 9 2023, by the Chief Executive Officer.

Note 3 - Summary of significant accounting policies:

The most significant accounting policies are summarized as follows, which have been consistently applied in the years presented, unless otherwise specified.

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

NIF require the use of certain accounting estimates in the preparation of the non-consolidated financial statements. Management judgment is required in the process of defining the Company's accounting policies. Items involving a higher degree of complexity of judgment and that the assumptions and estimates are significant to the non-consolidated financial statements are described in Note 4.

a. Permanent investments in subsidiaries

Subsidiaries are all those entities over which the Company has control to direct its relevant activities, is entitled (and is exposed) to variable returns from its participation and has the ability to affect said returns through its power. In evaluating whether the Company controls an entity, the existence and effects of potential voting right that are currently exercisable or convertible were considered. The existence of control is also evaluated in cases where it does not have more than 50% of the voting right, but the Company can direct its relevant activities.

The Company through its subsidiary Cancún Airport used the purchase method to recognize business acquisitions. The consideration for the acquisition of a subsidiary is determined based on the fair value of the transferred net assets, the assumed liabilities and the issued capital. The consideration for an acquisition also includes the fair value of those contingent amounts to be collected or paid as part of the agreement. Acquisition-related costs are recognized as expenses when incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business acquisition are generally initially recognized at their fair values at the acquisition date.

Permanent investments in subsidiaries are initially recognized based on the amount invested, contributed or acquired, and taking into account the following:

- i.) When the acquisition cost is greater than the fair value of the identifiable net assets of the subsidiary in the proportion in which the holding participates, within the permanent investment the fair value of said net assets is identified, and the difference of this with the acquisition cost are identified as goodwill.
- ii.) When the acquisition cost is less than the fair value of the identifiable net assets of the subsidiary in the proportion in which the holding participates, the fair value of the net assets of the associate or the joint venture must be considered to be the same as its cost acquisition

Subsequently, said investments are valued under the equity method, which consists of adjusting the investment, contribution or acquisition value of the shares, the latter determined based on the purchase method, by the proportional part of comprehensive profits or losses. and the distribution of profits or capital repayments after the acquisition date. Losses in subsidiaries, which do not come from reductions in the percentage of participation, are recognized in the corresponding proportion, as follows: a) in the permanent investment, until leaving it at zero; b) if there is any surplus after expanding what is described in subsection a) above, it is recognized in the accounts receivable until they are left at zero, c) if there is any surplus, it is recognized as a liability for the legal obligations assumed in the name of the subsidiary and d) any excess losses not recognized in accordance with the foregoing, are not recognized. The Company's participation in the results of the subsidiaries is presented separately in the non-consolidated comprehensive income statement. See Note 5.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

Recording, functional and reporting currency

Since both the registration currency, the functional currency and the reporting currency are the Mexican peso, it was not necessary to carry out any conversion process.

Pursuant to the provisions of NIF B-15, the Company has identified the following currencies:

Type	Currency	
	2022	2021
Recording	Mexican peso	Mexican peso
Functional	Mexican peso	Mexican peso
Reporting	Mexican peso	Mexican peso

Inflation effects in financial information

According with the provisions in the NIF B-10 "Inflation Effects", as of January 1, 2008, the Mexican economy is not an inflationary environment, since there has been a cumulative inflation below 26% (threshold to define that an economy should be considered as inflationary); therefore, it has been required to discontinue the recognition of the inflation effects in the financial information. Accordingly, the figures of the accompanying non-consolidated financial statements at December 31, 2022 and 2021 are stated in historical Mexican pesos modified by the inflation effects on the financial information recognized up to December 31, 2007.

Inflation rates are shown below:

	December 31,	
	2022	2021
Annual inflation rate	7.82%	7.35%
Cumulative inflation in the last three years	19.39%	13.87%

b. Cash and cash equivalents

Cash and cash equivalents include cash balances, bank deposits and other highly liquid investments, with minor risks due to changes in value. As of December 31, 2022 and 2021, cash and cash equivalents mainly consisted of bank balances.

c. Land

The land represents an area where was required to build 450 hotel rooms in conjunction with the National Tourism Fund (FONATUR) in Huatulco which are recorded at its cost and are not subject to depreciation. During 2021, FONATUR and the Company entered into a purchase agreement, returning FONATUR to the Company \$286,283, which was the price the Company initially paid for the land. See Note 9.b

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

d. Provisions

The liabilities provisions represent current obligations for past events where outflow of economic resources is possible (it is more likely than not). These provisions have been recorded based on management's best estimation.

e. Current and deferred income tax

Current and deferred tax is recognized as an expense in the period income, except when arising from a transaction or event that is recognized outside the period income as other comprehensive income or an item directly recognized in stockholders' equity.

The deferred income tax is recorded based on the comprehensive asset-and-liability method, which consists of recognizing deferred tax on all temporary differences between the accounting and tax values of assets and liabilities to be materialized in the future, to the rates enacted in the effective tax provisions at non-consolidated financial statements date. See Note 7.

f. Stockholders' equity

The capital stock, legal reserves and cumulative profit are expressed as follows: i) movements done as of January 1, 2008 at historical cost, and ii) movements done before January 1, 2008 at restated values determined through the application of factors derive from the NCPI up to December 31, 2007 to their originally determined values. Accordingly, the different stockholders' equity concepts are expressed at modified historical cost.

g. Other comprehensive income

The other comprehensive income (OCI) is comprised of income from the translation of foreign operations, remeasurement of labor obligations in subsidiaries, as well as income taxes related to OCI.

h. Comprehensive income

Comprehensive income comprises the net income, conversion effects and other comprehensive income, which are reflected in stockholders' equity and do not constitute equity contributions, reductions and distributions. Comprehensive income amounts of 2022 and 2021 are expressed at historical pesos.

i. Revenue recognition

Revenue from the provision of services in the normal course of the Company's operations is recognized at the fair value of the consideration received. Income is presented net of value added tax, rebates and discounts.

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

When there is an unconditional right to receive a consideration before control is transferred over a good and / or customer service, a Contract Liability is recognized; when the payment is received, an advance of customers is recognized and must be deregistered (and recognize an income) when it transfers control over the goods or services and, with this, satisfy their obligation to fulfill.

Considering the services that the Company provides, they are recognized when the service has been provided.

j. Presentation of costs and expenses in the income statement

The Company presents costs and expenses in the income statement under the classification criterion, based on the nature of items, as it breaks down the categories of costs and expenses, taking into account the specific nature of the type of cost or expense of the entity. Additionally, for a better analysis of the financial position, the Company has considered necessary to show the amount of profit separately in the income statement, because such information is a common practice in the industry to which the entity belongs.

k. Exchange differences

Transactions in foreign currencies are initially recorded at record currency applying the exchange rates prevailing on the dates they are entered into and/or settled. Assets and liabilities denominated in such currencies are translated at the exchange rate prevailing at the date of the non-consolidated statement of the financial position. Exchange gain or loss arising from fluctuations in the exchange rates between the transaction and settlement dates, or valuation at the period closing are recognized in the income as a component of the financing comprehensive income.

l. Mexico subcontracting reform

On April 23, 2021, several provisions were published in the Federal Labor Law, Social Security Law, Law of the Institute of the National Housing Fund for Workers, Fiscal Code of the Federation, Income Tax Law and Value Added Tax Law in order to regulate the subcontracting of personnel.

In general terms, the main aspects are: a) prohibit the subcontracting of personnel, b) incorporate rules into the current legislation that allow legal entities and individuals to contract only specialized services or the execution of specialized works, provided that they are not part of the corporate purpose or the predominant economic activity of the beneficiary of the same, c) establish maximum amounts for the payment of Profit Sharing (PTU), and d) creation of the Registry of Providers of Specialized Services and Specialized Works (REPSE) of the Ministry of Labor and Social Welfare (STPS).

These subcontracting reforms entered into force the day after their publication, except for what refers to the obligations indicated in fiscal matters which entered into force on August 1, 2021 and those of the regulations of Section B), of the Federal Law of Workers to State Service that will come into force in the year 2022.

The Company carried out an analysis on the application of these new provisions and did not have a material impact on the non-consolidated financial statements.

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

Note 4 - Accounting estimates:

The Company and its subsidiaries make estimates and projections about future events to recognize and measure certain items in the financial statements. The resulting recognized accounting estimates are likely to differ from actual results or events. These estimates are recognized in the financial statements of the subsidiary companies and would have a possible effect on the investment in subsidiary companies' line in the non-consolidated statement of financial position and in the line share of net profit of subsidiaries in the non-consolidated statement of comprehensive results. See Note 5.

4.1 Revenue - Maximum rate in subsidiaries with airport concessions

The rate regulation system applicable to the Company's airports in Mexico imposes maximum rates for each airport, which should not be exceeded on an annual basis. The maximum rates are the maximum annual amounts per traffic unit (one passenger or 100 kilograms of cargo). If said maximum rate is exceeded, the government authority may revoke one or more of the Company's airport concessions in Mexico.

The subsidiaries monitor and adjust their income on a regular basis so as not to exceed the limits of the maximum rate at each of the airports that operate in Mexico.

If they recognized revenue higher than said maximum rate, the authority could revoke one or more airport concessions, consequently the Administration regularly monitors the regulated income in its airport subsidiaries so that they do not exceed said limit. The application of the procedure established in the concession titles to determine the maximum rates and obtaining the necessary data are complex procedures. Among the data used in the determination are passenger traffic and cargo statistics, in addition to variables included in the calculation such as the National Producer Price Index excluding oil, authorized rates for airport services, and Airport use.

4.2 Impairment assessment of goodwill at subsidiary Cancun Airport

Goodwill is assessed for impairment testing annually and whenever events or changes in circumstances indicate that the book value of goodwill has deteriorated, for example, due to a change in tourism preferences, economic situation and security in countries, or other factors that affect passengers at our airports. To determine whether the value of goodwill has deteriorated, the cash-generating unit to which goodwill has been allocated must be valued using present value techniques. In applying this valuation technique, Cancun Airport relies on a number of factors, including historical results, business plans, forecasts, and market data. As can be deduced from this description, changes in the conditions of these judgments and estimates can significantly affect the assessed value of goodwill.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

Dividends

At the Ordinary General Stockholders' Meeting held on April 20, 2022, the Company's Stockholders agreed to delegate the power to decree and pay an ordinary dividend for \$2,709,000 (nominal), as well as the payment of an extraordinary dividend for \$1,800,000 (nominal), which will not accrue Income Tax as they arise from the CUFIN (Net Tax Profit Account).

At the Ordinary General Stockholders' Meeting held on April 23, 2020, the Company's Stockholders agreed to delegate the power to decree and pay an ordinary dividend for \$2,463,000 (nominal) to the Administrative Board, which will not accrue Income Tax as they arise from the CUFIN. On June 29, 2021, the Board of Directors approved the decree of dividends and their payment for October 1, 2021.

Dividends are tax free if paid from the CUFIN. Dividends paid in excess of the CUFIN balances are subject to tax equivalent to 42.86%. The tax caused will be borne by the Company and may be credited against the Income Tax caused for the year or in which it is paid. The remaining amount may be credited in the next two years immediately against the tax for the year or against provisional payments. Dividends paid that come from profits previously taxed will not be subject to any withholding or additional tax payment. The Income Tax Law (LISR) establishes the obligation to maintain the CUFIN with the profits generated until December 31, 2013 and to initiate another CUFIN with the profits generated as of January 1, 2014. As of December 31, December 2022 and 2021, the sum of CUFIN of the Company's subsidiaries is \$20,812,899 and \$17,347,482, respectively, while the Capital Contribution Account (CUCA) is \$53,329,606 and \$48,586,919, respectively.

In the event of capital reduction, any surplus of stockholders' equity over the balances of the contributed capital accounts will be given the same tax treatment as that of dividend, in accordance with the procedures established by the Income Tax Law.

Retained earnings

Substantially all of the Company's consolidated earnings were generated by its subsidiaries. Retained earnings may be distributed to the Company's shareholders to the extent that the Company's subsidiaries have distributed earnings to the Company.

Note 7 - Current and deferred Income Tax (IT):

The Company does not consolidate for tax purposes.

Income tax

- i. The IT for the period is calculated applying the 30% rate on the taxable profit. In 2022 the Company determined a tax profit of \$682,067 (tax profit of \$457,662 in 2021). The tax result differs from accounting, mainly for those items that accumulate and deduct differently for accounting and tax purposes over time, for the recognition of the effects of inflation for tax purposes, as well as those items that only affect the accounting or fiscal result.

Others	\$ (2,507)	\$ (3,685)

Note 8 - Balances and operations with related parties:

The main operations with related parties are as follows: The Company and its subsidiaries have entered into a contract where, as the Company is jointly and severally liable for the obligations of each of the subsidiary concessions, it is in a position to contribute to the cleaning of its finances, to the fulfillment of the commitments established in the Master Development Plans (MDP) and to the fulfillment of the operating expenses of the subsidiaries that by their own account and operation are not in possibility of realizing them. By means of said agreement, the subsidiaries are obliged to make a monthly payment to the Company, depending on their economic capacities and the financial requirements that the subsidiaries may have in their case. The total amount paid by the subsidiaries as of December 31, 2022 and 2021, was \$398,951 and \$229,759, respectively.

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

The Company and its subsidiaries have entered into an agreement for the use of licenses and trademarks between the Company and its subsidiaries, in which they are obliged to pay an annual royalty fee, as long as it has positive financial results and is capable of financial without affecting the fulfillment of its investment commitments in the MDP, the consideration will be determined The respective amount will be determined by applying a percentage to their gross income without including equity in subsidiaries, financial products and exchange gains. As of December 31, 2022 and 2021, the consideration paid by the subsidiaries for this concept was \$411,161 and \$264,698, respectively.

As of December 31, 2022 and 2021, the Company has no balance payable by its subsidiaries.

During the year ended December 31, 2022 and 2021, the Company granted the following benefits to the Board of Directors and the various Group Committees:

	2022	2021
Board of Directors and Committees	<u>\$ 8,671</u>	<u>\$ 8,144</u>

Note 9 - Commitments and contingencies:

Commitments:

- a) As mentioned in Note 8, the Company, being jointly and severally liable with respect to the obligations of each of the Mexican concessions of the subsidiaries, to the fulfillment of the commitments established in the MDP.

On August 19, 2020, the Federal Civil Aviation agency approves the Company's request for rescheduling (deferral) of certain investments corresponding to 2020 for a total amount of \$2,292,355, to be fulfilled in 2021, due to the contingency for the COVID-19, which affected the conditions of the production and construction industry, interrupting the continuation of the works and signing new contracts that are indicated in the PMD 2019-2023.

On March 31, 2021, the AFAC authorized the reduction and modification of the Capital investments foreseen in the Master Development Plan (MDP), for the period of 2019-2023, regarding the review of maximum rates, without any penalty.

As of December 31, 2022, the investment commitments of this MDP are \$572,716, corresponding to the 2023 period, figures adjusted as of December 31, 2022 based on the Construction Price Index (CPI) in accordance with the terms of the MDP.

- b) Pursuant to the terms for the purchase of the land in Huatulco that occurred in October 2008, the Company had the obligation to build 450 hotel rooms, for which purpose the Company will enter into agreements with third parties to develop the comprehensive tourism plan without a specific due date. As of December 31, 2020, there was an indefinite extension for this commitment issued by the National Fund for the Promotion of Tourism (FONATUR). During the second quarter of 2021, FONATUR paid the Company \$286,283 for the repurchase of the land in Huatulco, an amount that was the price that the Company initially paid for the land. As of December 31, 2021, there are no longer any obligations to be fulfilled by the Company in relation to this matter.

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

Contingencies:

As of December 31, 2022 and 2021, the Company has confirmed that the results of the disputes cannot be accurately predicted, since they are in the due process of law and it considers that there are not enough elements to determine that by virtue of which they were resolved. could adversely affect the Company's non-consolidated financial position.

- c) The Company's operations are subject to Mexican federal and state laws.
- d) At the time that the Company was carrying out the competitive bidding process (1998) for the sale of shares of the Airport Groups, the SCT established and communicated that concessionaires could amortize for tax purposes the value of the concession up to 15% a year. In February 2012, the SCT estimated an amount due payable by Cancun in the amount of \$865 million pesos against the ruling in question, because it considered that the determination of the 15% amortization was not valid in 2006 and 2007. The Company disagreed with the decision and filed an appeal to overturn this determination. However, in order to adhere to the amnesty program set forth in Transitory Article Three of the new Income Law for 2013, the Company partially desisted from the appeal as it relates to the income tax obligation, but not in regard to the determination of the additional distribution related to employees' statutory profit sharing, which the Company continues to appeal. The risk is that if a judge does not rule in favor of Cancun the amount payable would be \$116 million pesos.
- e) There are currently a number of labor suits in progress against the Company, mainly in relation to involuntary termination. Any sentences that might be handed down not favoring the interests of the Company do not represent significant amounts. The Company is in legal proceedings at the date of this report and a resolution has not been issued yet.
- f) On August 21, 2019, the Board of Commissioners of the COFECE (Federal Economic Competition Commission) notified Aeropuerto Internacional de Cancún, S. A. de C. V. of the resolution issued on July 25, 2019, which provides for the following: (i) administrative liability for having exercised the monopolistic practices described in article 56, section V of the Mexican Federal Economic Competition Law ("LFCE") (refusal of access); (ii) the Company shall be imposed a fine of \$73 million pesos. On the understanding that there is sufficient grounds for defense, the Company has contested the administrative sanction imposed by the COFECE by filing *amparo* proceedings. The Company considers that the *amparo* proceedings will not be resolved in a term lower than 2 years from the date of filing, and, therefore, it is under no obligation to pay the fine before the end of such proceedings.

Note 10 - New accounting pronouncements:

The following describes a series of NIF issued by CINIF issued during December 2021 and 2022, which will take effect in 2023. Those NIF are not considered to have a significant impact on the financial information to be presented by the Company:

NIF 2023

NIF B-14 "Earnings per share". Establishes the bases for determination and rules for the disclosure of earnings per share (EPS), highlighting, among other, the following: a) for the determination of the basic EPS, clarifications related to dividends and other rights of preferred shares are made, specifically on the moment and the amount that must be considered in the calculation of the attributable profit in different situations; b) for the determination of diluted EPS, clarifications are made to better identify whether the effect of the financial instruments that gives rise to the potential ordinary shares is dilutive or anti-dilutive

Grupo Aeroportuario del Sureste, S. A. B. de C. V.

Notes to the Non-consolidated Financial Statements

December 31, 2022 and 2021

and, consequently, whether or not it should be considered in the determination of the diluted EPS; and c) it is specified that the shares that will be issued for the conversion of a forced conversion debt financial instrument classified as an equity instrument, under the provisions of NIF C-12, must be included in the calculation of the basic EPS from the date in which the financial debt instrument was issued.

Conceptual Framework. The structure of the conceptual framework is modified to include in one NIF the eight NIF previously issued regarding the conceptual framework. Likewise, adaptation, clarifications were made related to the restructuring of hierarchy and the description of the qualitative characteristics of the financial statements with the definition of assets and liabilities, with aspects related to valuation issues, with related requirements to ensure that the financial statements are useful to users and with presentation bases in terms of the compensation and grouping of items in the financial statements.

Improvements to NIF 2023

NIF B-11 "Disposal of Long-lived Assets and Discontinued Operations" and NIF C-11 "Stockholders' Equity". Incorporates the accounting treatment in the event that in a dividend distribution or equity reimbursement through long-lived assets there is a difference between the book value of the long-lived assets held to distribute to owners that will be used to settle such transaction and the liability recognized as of the date on which dividends or equity reimbursements are settled. Likewise, required disclosures derived from these transactions are specified.

NIF B-15 "Foreign currency conversion". Modifies the practical expedient to not convert the financial statements from the recording currency into the functional currency, in order to make a precision and make it clearer that in the event that they do not have subsidiaries or parent companies they must also meet the requirement of not having users who require the financial statements considering the effects of the conversion to the functional currency.

Likewise, modifications were also made to the following NIF, which do not generate accounting changes, consequently, no effective date is established Those modifications imply only adjustments to the drafting and incorporation of certain concepts:

- B-10 "Effects of inflation"
- C-2 "Investments in financial instruments"
- C-3 "Accounts receivable"
- C-4 "Inventories"
- D-6 "Capitalization of the comprehensive financing result"

Improvements to NIF 2022

See description of the standards in Note 2 Basis of preparation.

Note 11 - Subsequent event:

From December 31, 2022 to the date of issuance of these non consolidated financial statements, there were no events that could have a significant effect on the information contained in the non consolidated financial statements.

Note 3 - Revenue from Contracts with Customers:

3.1) Revenue recognition

Airports operated by the Company receive income from external clients for aeronautical services rendered to airlines and the rendering of complementary services. The Company also recognizes revenue from construction services arising from concession agreements with government entities.

Following is a description of the principal types of service agreements from which the Company receives revenue.

3.1.1) Aeronautical services

The Company operates airports in three countries (Mexico, Puerto Rico and Colombia), providing multiple aeronautical services involving principally the following performance obligations.

- a. Passenger rates (Airport Use Fee - TUA), which is calculated based on total outgoing passengers (other than diplomats, infants and passengers in transit) making use of air terminals operated by the Company.
- b. Landing fees, which contemplate landing services, the use of runways, taxiing strips, and bands.
- c. Platform use fees, based on the time and aircraft remains at a terminal after landing.
- d. Security services, calculated on the basis of the total number of incoming and outgoing passengers.
- e. Baggage inspection fee, calculated on the basis of total number of outgoing passengers.
- f. Use of passenger walkways, which consists of rendering passenger walkways service connecting an aircraft to the terminal after landing.
- g. Fee for the use of passenger documentation counters; the fee is applied on the basis of the holding of documentation for one-hour periods. After the first hour has elapsed, the fee is charged proportionately for 30-minute increments.

Revenue is measured based on the consideration specified in the tariff regulating system applicable to airports in each country for each performance obligation identified. In Mexico, these are regulated by the SCT, in Puerto Rico by the "Federal Aviation Administration" (or FAA) and in Colombia by the Special Administrative Unit of Civil Aeronautics (Aerocivil).

In its capacity as operator of the LMM Airport, Aerostar entered into a Use Agreement with the main airlines serving LMM Airport, referred to as "Signing Airlines". The agreement has a term of 15 years, counted as from February 27, 2013, with an option to be terminated in advance by agreement of the parties. If, upon completion of the effective term, no new use agreements have been entered into, each of the Use Agreements in force at that date will continue to be binding until new use agreements are signed.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Pursuant to the Use Agreement, Aerostar is entitled to receive the following annual contributions from the airlines serving LMM Airport:

- For the first partial year of contract (i.e. the year ended on December 31, 2013), USD\$62,000 (approximately \$1,268,966) multiplied by the number of effective days elapsed in that year, divided by the number of days of the year.
- For the following five years of contract, USD\$62,000 per year.
- For the remaining contract years, the total annual contributions for the previous year, adjusted by inflation based on the non-underlying U.S. Consumer Price Index. At December 31, 2022 and 2021, airline contributions total USD\$67,030 (\$1,305,166) and USD\$65,907 (\$1,336,793), respectively.

Passenger, landing and security fees are recorded at a particular point in time, once the aircraft departure manifest has been delivered. Revenue arising from other performance obligations is recorded over a period of time as the services are rendered.

Discounts

The Company may apply discounts to its rates, provided they are not discriminatory in the light of the laws in effect in the countries in which the Company operates. Discounts are granted based on the discount policy and conditions negotiated with the National Autotransportation Chamber (CANAERO), and regulated income must be delivered within a period of 30 days.

Revenue is recorded net of estimated discounts based on applicable rates.

The prompt-payment discount for regulated income principally the Airport Use Fees (TUA by its initials in Spanish) is established in each of the contracts signed with the airlines and is subtracted from the aforementioned income. In 2022 and 2021, the discount amounted to \$118,480 and \$88,787, respectively.

Terms of payment

In accordance with the contracts entered into with clients for airport services, the credit term is 30 days, and for complementary services, the first day of each month.

3.1.2) Non-aeronautical services

The Company generates revenue from non-aeronautical services, which involve basically the following performance obligations.

- a. Access rates to nonpermanent overland transportation based on the number of access events experienced by the transportation companies operated by 3rd parties providing passenger transportation services at the terminal.
- b. Car parking, rates based on the time vehicles remain at public parking areas.
- c. Retail sales, recorded when a product is sold to a client and payment on the transaction is made at the time of purchase.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Revenue arising from access rates to overland transportation and retail sales are recorded at a particular point in time, to the extent that the performance obligation is satisfied and the promised goods and services are transferred, while parking area income is recorded over time.

Contracts for commercial income

IFRS 15 must be applied to all contracts with clients. However, there are exceptions, such as contracts for the leasing of commercial space, which fall under IFRS 16 "Leases".

Leasing income (non-regulated activities) are considered complementary services to the supply of regulated services so there is no separate infrastructure other than the intangible recognized as shown in Note 8, nor is a right of use to be accounted for separately in compliance of IFRS 16.

Presently, space leased at airports to airlines and other commercial lessees comprise the most significant source of income related to non-aeronautic services. Leasing income is accrued monthly and is determined by applying a percentage established in the lease contract to income from actual sales of lessees (share of sales), or an agreed minimum fee.

Commercial leasing operations include the leasing of automobiles, the sale of food and beverages, retail sales, sales made at kiosks, graphic advertising, overland transportation, fixed operations and other services rendered. Commercial income is partially recorded on the basis of lessee income and is partially based on minimum lease rates.

At December 31, 2022 and 2021, variable leasing income was \$4,637,247 and \$3,682,917, respectively, and \$1,295,167 and \$653,070, respectively, for fixed leasing rates.

3.1.3) Construction services

As an operator of airport concessions, the Company is required to improve items under concession. Works carried out within the airport are based on development plans authorized by the regulators. Revenue from construction services are recorded on the basis of percentages of completion, presented by the contractors, and approved by the regulator at least once a year. Improvements made are expected to complement the infrastructure of the airport operated by the Group. IFRS 15 establishes that during the construction period of the infrastructure related to concessions received, they must be shown as "contract assets" in the statement of financial position, regardless of the type of consideration received (financial asset or intangible asset). See Note 8.

Construction services carried out by the Group do not entitled it to a direct cash consideration; rather, it is entitled to charge users for airport services rendered at the terminals during the concession period. Revenue from construction services is measured at fair value of the services rendered, which increased the value of the intangible asset, plus the cost of capitalized financing.

As of December 31, 2022 and 2021, revenues from construction services in Mexico were \$2,268,620 and \$2,908,604, in Aerostar they were \$411,152 and \$231,301, and in Airplan they were \$12,922 and \$6,261, respectively.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

3.1.4) Airports Law and Regulations

Mexico

Under the Mexican Airports Law and regulations thereto, company income is classified as Airport Services, Complementary Airport Services and Commercial Services. Airport Services mainly consist of the use of runways, taxiways and platforms for landings and departures, parking for aircrafts, use of mechanical boarders, security services, hangars, car parking, as well as the general use of the terminals and other infrastructure by the aircrafts, passengers and cargo, including the rental of space that is essential for the operation of airlines and suppliers of complementary services.

Non-regulated Services mainly consist in complementary services such as of ramp services and handling of luggage and cargo, food services, maintenance and repair and related activities that provide support to the airlines.

The Rate Regulation Law provides that the following sources of revenues are regulated under this system:

- Revenues from airport services (as defined under the Mexican Airport Law), other than automobile parking, and
- Access fees earned from third parties providing complementary services, other than those related to the establishment of administrative quarters that the SCT determines to be non-essential.

Non-regulated Services consist of services that are not considered essential for an airport's operation, such as the rent of spaces to businesses, restaurants and banks. Access fees and income from other services are recognized as services are rendered.

Following is the Company revenue at December 31, 2022 and 2021, using the classification established in the Airport Law and the Regulations thereto, on the basis of performance obligations established under IFRS 15.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

This other income corresponds in both cases to income for the years 2014-2022. This recovery is non-recurring and from 2023 the part corresponding to income from the fuel distribution fee at the LMM Airport (USD\$.02 cents per gallon or fraction of a gallon of aviation fuel dispatched at the LMM Airport) will be recorded in the aeronautical revenue line from the subsidiary Aerostar. (See Note 15 i).

The recovery of income from regularization of car rental companies comes from an operational agreement of car rental outside the airport reached by Aerostar and car rental companies that operated outside the airport on public roads and for which a favorable resolution was obtained by the Court of district of Puerto Rico and a collection check was obtained for the amount of USD\$2,225 (\$45,848). This recovery is non-recurring and as of 2022, the corresponding part is recorded in the non-aeronautical revenue line from the subsidiary Aerostar.

4.1) Grants – Aerostar

CARES Act

On May 12, 2020, the United States Government, through the FAA, awarded Aerostar a financial aid grant under the CARES Act amounting to USD\$33,417 (approximately \$717,590) to respond to the impacts of COVID-19. These funds may be used by the Company within a period of four years and for any purpose for which airport revenues may be lawfully used, except for new airport development projects. The funds are received by means of reimbursements once the invoice for the expense incurred has been submitted to the FAA through the established means. These invoices have to include enough details to permit the FAA to verify compliance with its Revenue Use Policy. After receiving reimbursement of the verified expenses, the Company discounts the related verified expenses within the same period, as refunds to the authorities are not possible. At December 31, 2022 and 2021, the Company is not in breach of conditions nor are there any other contingencies relating to these grants.

Over the year, the Company received USD\$17,125 (approximately \$367,752) for reimbursements of invoices submitted to the authority, of which \$339,681 are recognized net of the pertinent expense or cost at December 31, 2020. The items to which they relate are the following: Short-term benefits \$165,894; Amortization of insurance and bonding \$142,274; Others \$23,650, which includes sewage services, waste disposal, among others; and Maintenance and preservation \$7,863. Advance payments for Insurance and bonding are presented in the Statement of Financial Position as deductions, in accordance with the accounting policy.

During 2021, the Company received the amount of USD\$16,292 (approximately \$33,477), related to the complement of the CARES Act, for reimbursements verifications presented to the authority, thus exhausting the resources of the first CARES Act aid program for USD\$33,417, which are presented net of the expense or cost corresponding to December 31, 2021. The related items are: Short-term benefits \$165,489; amortization of Insurance and bonds \$31,909; Other \$95,118, which includes sewage services, garbage disposal, among others, and Maintenance and conservation \$40,961. Advance payments for insurance and bonds are deducted from the statement of financial position, in accordance with accounting policy.

During 2022, as resources were spent, no amount was received from this program.

CRRSA Act

On February 18, 2021, official confirmation was received from the FAA granting Aerostar the approval of this Federal assistance under the Coronavirus Response and Relief Supplemental Appropriation Act (CRRSA Act) for a total amount of USD\$10,577 (approximately \$210,574), without any cost, which can be credited by the Company within a period of 4 years and can be used for costs related to operations: personnel, cleaning services, sanitization and even for equipment replacement strictly related to the operation of the Airport, additionally it can be destined for the payment of debt. The funds will be received by means of reimbursements once the invoice for the expense incurred, which must include sufficient details to allow verification of compliance with the policy for the use of the grant, has been submitted to the FAA through the established means. During the years of 2022 and 2021, the Company received the amount of USD\$9,594 and USD\$983, respectively (\$196,376 and \$20,122, respectively, approximately), for reimbursements of verifications presented to the authority, which are presented net of the corresponding expense or cost corresponding to December 31, 2022 and 2021. As of December 31, 2021, the related expense items are: Other \$20,122. As of December 31, 2022, the related expense items are: Salaries \$73,503, taxes and duties \$59,297; Maintenance and upkeep \$31,362, and Other \$32,213, which includes ambulance services, security and surveillance, cleaning, among others. Notes to the Consolidated Financial Statements December 31, 2022 and 2021

December 31, 2022 and 2021, there are no unfulfilled conditions or other contingencies related to these grants.

ARPA Act

On November 5, 2021, the Federal Aviation Administration awarded subsidiary Aerostar an airport rescue grant offer under the American Rescue Plan Act (ARPA) for a total amount of USD\$35,716 (approximately \$731,106), at no cost, for a period of 4 years and can be used to finance costs related to staff operations, cleaning, disinfection, and even payment of debt service. During the year 2022, the Company received USD\$17,515 (approximately \$350,901) which includes benefits in: Insurance and bond amortization \$126,285, salaries \$109,241, taxes and duties \$74,934, cleaning services \$22,937 and other \$17,504. As of December 31, 2022 and 2021, there are no unfulfilled conditions or other contingencies related to these grants. As of December 31, 2021, the Company did not use these resources and did not directly benefit from any other form of government assistance. (See Note 17.22).

4.2) Mexico subcontracting reform

On April 23, 2021, several provisions were published in the Federal Labor Law, Social Security Law, Law of the Institute of the National Housing Fund for Workers, Fiscal Code of the Federation, Income Tax Law and Value Added Tax Law in order to regulate the subcontracting of personnel.

In general terms, the main aspects are: a) prohibit the subcontracting of personnel, b) incorporate rules into the current legislation that allow legal entities and individuals to contract only specialized services or the execution of specialized works, provided that they are not part of the corporate purpose or the predominant economic activity of the beneficiary of the same, c) establish maximum amounts for the payment of PTU, and d) creation of the Registry of Providers of Specialized Services and Specialized Works (REPSE) of the Ministry of Labor and Social Welfare (STPS).

These subcontracting reforms entered into force the day after their publication, except for what refers to the obligations indicated in fiscal matters which entered into force on August 1, 2021 and those of the regulations of Section B), of the Federal Law of Workers to State Service that came into force in the year 2022.

The Company carried out an analysis on the application of these new provisions and did not have a material impact on the consolidated financial statements.

5.1) Restricted cash

Aerostar

In accordance with Aerostar's long-term bond placement contracts, it is required to maintain debt reserves and operating expenses, through two options described in the same contract, which are: 1) cash, through a specific bank account or 2) letter qualified credit. Until February 2022, this requirement was covered by the letter of credit issued by Aerostar stockholders in favor of Citibank, which generated commissions (recognized as an expense) thus having the guarantee of a third party. Derived from Aerostar's available liquidity, as of March 2022, the Administration decided to meet these reserves with the cash that was available, for which, through a specific bank account, it maintains the amount that is restricted for reserves. The Company does not have immediate access to these resources because it is required to maintain reserves at all times and the use of these reserves is subject to authorizations in accordance with the bond placement agreements. These deposits are subject to contractual restrictions and therefore are not available for general use. As of December 31, 2022, the restricted cash balance amounts to \$1,175,622.

As of December 31, 2022 and 2021, restricted cash includes the amounts collected by Aerostar for the concept of "Passenger Facility Charge" (PFC), which are restricted to be used to fund investment projects in airport infrastructure previously authorized by the FAA. for \$96,485 and \$123,081, respectively. See Notes 15.d and 17.6.

México

On November 17, 2022, the subsidiary Aeropuerto de Cancún established a short-term irrevocable trust, with a maximum maturity of December 31, 2023, with the trustee Scotiabank Inverlat, S.A., who received from the trustee and settlor (Cancún Airport) as an initial contribution for the creation of a financial reserve to meet their respective investment obligations under the PMD the amount of \$148,621. These unique resources that the trust has are restricted to immediate access and it is for the exclusive use of payment to contractors for the works to be carried out up to the maximum amount of these resources available. The trustee will receive the approval of the Technical Committee of the Trust to make the payments object of the trust. These deposits are subject to restrictions established in the same contract and therefore are not available for general use.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

The expectation for collection of the short-term account receivable is one month in relation to the reporting date. In 2020, agreements were signed, with collection guarantees, with those customers who reported difficulties during the year and the term for these specific customers was extended for a period of no more than one year, which ended in 2022. (See Note 6.2).

Accounts receivables are comprised mainly of TUA paid by passengers (other than diplomats, infants and passengers in transit) who travel using the airport terminals operated by the Company. The balance at December 31, 2022 and 2021 for this concept amounted to \$1,323,005 and \$1,139,818, respectively.

6.2) Notes receivable from clients

The Company agreed with several clients, whose income is derived from airport services, the negotiation of extending the collection terms from 30 to 180 days guaranteed from the beginning of the agreement by signing promissory notes, establishing monthly payments and falling due within a term no longer than one year. Due dates for these clients returned to 30 days once the agreement was expired as of the second quarter of 2021. As of December 31, 2022, the balance of the account of notes receivable from clients was settled and as of December 31, 2021 they amounted to at \$4,463.

The documents had the following features:

Mexico - Falling due no later than a year at the interest rate for Federal Treasury Certificates (Cetes) plus 7 points multiplied by 1.5, interest accrued in the period is not material.

Airplan. - Falling due before one year at the interest rate of DTF plus four points, interest accrued in the period is not material.

These notes receivables were subject to impairment testing and analysis, and therefore, they have been grouped in the same category of risk. Considering the prospective factors of clients with which notes receivable are recorded, no expected losses were identified as regards notes receivable.

6.3) Impairment of accounts receivable

After the assessment made by the Company as regards its clients, the Company decreased in 2022 the consolidated estimate of impairment of accounts receivable by \$15,517 with respect to 2021 and in 2021 it decreased by \$28,519 with respect to 2020.

At December 31, 2022, total balance of accounts receivable not impaired amounts to \$1,917,501 (\$1,487,553 at December 31, 2021). These accounts refer to clients that have no recent record of noncompliance, and due to their positive performance with the company, no increase in the level of credit risk was identified in our prospective assessment.

In Mexico, increases to the impairment of accounts receivable for the year 2022 and 2021 amounted to \$5,707 and \$9,331, respectively, At December 31, 2022 and 2021 in accordance with our analyses, no future noncompliance is expected, as they were able to access to financing and governmental economic aid, in the case of international airlines, which will enable them to continue meeting their financial commitments. The Company monitors the accounts receivable performance and takes measures in this regard, as it is empowered to prevent service provision if there are situations outside its policy for due dates exceeding 30 days, which keeps the level of exposure at a low risk.

In Aerostar, applications to the allowance for impairment of accounts receivable were recorded in 2022 for \$7,997 and in 2021 for \$36,275, represented mainly by international airlines that, according to the

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Company's analysis and the current uncertainty, the cessation of some recurring international operations at the LMM Airport is probable due to the decrease in international passenger traffic, traveling directly to the LMM Airport. The passenger mix at this airport is primarily made up of domestic traffic. In 2022 and 2021, domestic traffic represented 91% and 94%, respectively. National airlines in the United States benefited from subsidies provided by the government. The Company expects that domestic airlines will continue to use the funds granted by the United States authorities to meet their operational responsibilities, including accounts receivable as of December 31, 2022 and 2021. International airlines do not benefit from assistance from the government of their respective countries and, therefore, together with the other factors described, the Company's assessment is that the collection could be at risk, during 2022 and 2021 there were no significant breaches in the collections of international airlines.

In Airplan, applications to the estimate for impairment of accounts receivable were recorded in 2022 for \$17,401 as well as an increase of \$3,974 and in 2021 applications of \$1,575. According to our analysis, no significant future defaults are expected because these clients have been able to access refinancing plans and possible government support from the Colombian government. The Company monitors the behavior of accounts receivable and takes measures in this regard, empowered, where appropriate, to prevent service to its customers, to find situations outside of what is established in its policy of maturities greater than 30 days, which maintains low risk exposure level.

The movements in the impairment provision are as follows:

Provision for impairment at January 1, 2021	\$ 346,183
Mexico's increase	9,331
Application of Aerostar's estimate	(36,275)
Application of Airplan's estimate	(1,575)
Provision for impairment at December 31, 2021	<u>317,664</u>
Mexico's increase	5,707

Airplan's increase	3,974
Application of Airplan's estimate	(17,401)
Provision for impairment at December 31, 2022	<u>\$ 301,947</u>

The constitution of the provision for impairment of accounts receivable has been recorded in the consolidated comprehensive income statement under cost of services, and the amounts charged to the provision are written off from accounts receivable when recovery is not expected.

In order to measure expected credit losses, accounts receivable and contract assets have been grouped on the basis of their shared credit risk features and days past due. The Company held no relevant contract assets at January 1 or December 31, 2022 and 2021.

The expected loss rates are based on the profiles for payment of sales in a 12-month period prior to December 31, 2022 or January 1, 2022, respectively, and on historical credit losses experienced within that period. Historical loss rates are adjusted to reflect current and prospective information on macroeconomic factors affecting client capacity for covering accounts receivable. The Company has determined that the economic situation of a country can have adverse effects on the transportation industry, in addition to the cost of complying with aviation regulations and union pressures on airlines,

which are the most relevant factors, and therefore adjusts historical loss rates based on changes expected in those factors.

On this basis, the provision for credit losses as of December 31, 2022 and December 31, 2021 was determined as follows for both accounts receivable and contract assets.

Notes to the Consolidated Financial Statements

December 31, 2022 and 2021

Lease liabilities are measured at the present value of remaining lease payments, discounted at the interest rate of the lessee. The weighted average interest rates of the lessee applied to lease liabilities at January 1, 2022 were 9.2% and 9.7% for the new contracts of the year during 2021.

The Company has executed a contract for the lease of corporate offices and commercial vehicles. The general terms of the lease contracts are shown below:

Corporate offices in Mexico:

Separate contract including the following terms and conditions: i) 5-year term; ii) monthly lease payments of USD\$28 (\$573 approximately); iii) a security deposit equivalent to 2-month rent; iv) the monthly base rent will be increased annually after the first year of the contract, in line with the increase in the US National Consumer Price Index; and v) in the event of nonpayment of principal, default interest will accrue at the most recent interest rate in US dollars published by the Wall Street Journal, with the Prime Rate in US dollars plus ten basis points.

Lease of commercial vehicles in Mexico:

Framework contract, with separate contracts by vehicle, including the following terms and conditions: i) mandatory term of 48 months; ii) monthly fixed payments and an extraordinary one-off rent payable in the first month; iii) cash value to be settled at the end of the mandatory term; iv) the lessee shall have a preferential right to acquire underlying assets at the end of the contractual term; and v) in the event of noncompliance with principal payments, default interest shall accrue at a monthly rate of 3%.

The lease agreements and service contracts for which lease assets were identified in accordance with IFRS 16 were not significant for the Company and they recognized it within the Land, furniture and equipment, net. See Note 17.8.

(**) Within the most significant additions in 2021 are: Mexico a) the continuation of the expansion works of the terminal building, commercial platform and roads of the Merida Airport; b) as well the continuation of the expansion works of terminal 3 and expansion works of terminal 4, expansion of taxiways, expansion of platforms and roads at Cancun Airport. At Aerostar, the expansion works of Terminal D at the LMM Airport.

The consolidated expense for amortization of intangibles related to concessions for 2022 is \$1,945,184 (\$1,877,315 in 2021) has been charged to the cost of aeronautical and non-aeronautical services, this amount includes the amortization of commercial rights of Aerostar for \$177,558 (\$186,638 in 2021), recognized by the valuation of its investment in accordance with IFRS 3 "Business combinations", and the amortization of the intangible assets of Airplan for \$99,560 (\$104,651 in 2021).

The amortization expense of the Mexican concession by \$863,183 in 2022 (\$759,798 in 2021) has been charged to the cost of the aeronautical and non-aeronautical services.

The amortization expense of the Aerostar concessions by \$489,041 in 2022 (\$486,507 in 2021) has been charged to the cost of aeronautical and non-aeronautical services.

The amortization expense of the Airplan concessions by \$315,842 in 2022 (\$339,676 in 2021) has been charged to the cost of aeronautical and non-aeronautical services.

Otherwise, the expense for amortizing licenses and ODC of \$49,715 in 2022 (\$37,974 in 2021) has been charged to administrative expenses.

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

8.1) Impairment testing of intangible assets, airport concessions and goodwill

The Company reviews the performance of business in the country where subsidiaries operate, considering three CGUs per country of operation.

During 2022 and 2021 there was a significant passenger recovery due to the decrease caused in 2020 due to COVID-19, where the CGUs had growth of 35% and 76.3% in Mexico, 6.5% and 99.9% in Aerostar and 56.8% and 149.8% in Airplan, compared to 2021 and 2020 respectively. This situation meant that during the year there were no events that constituted indications of impairment in any of the 3 countries, so that the Administration was not obliged to perform impairment tests on all intangible assets and airport concessions. In the Aerostar and Airplan CGUs, the required annual impairment tests were carried out at the value of goodwill, which as of December 31, 2022 is \$2,469,378.

Goodwill is assigned to the operating segments that are expected to benefit from the synergies of the business combination, regardless of whether other assets or liabilities of the acquired entities are assigned.

The following is a summary of the allocation of goodwill:

	December 31,	
	2022	2021
Aerostar	\$ 930,231	\$ 997,644
Airplan	1,539,147	1,605,598
	<u>\$ 2,469,378</u>	<u>\$ 2,603,242</u>

Methodology:

Pursuant to IAS 36 methods applied to the 2022 and 2021 calculation, Management determines the recoverable value by the fair value less costs of disposal. The Company used this method for all its CGUs. To determine the fair value less costs of disposal the discounted cash flow projections approved by Management are used covering a period of 30 and 31, respectively, in the case of Aerostar and 10 and 11 years, respectively, in the case of Airplan, which correspond to the remaining years of the airport concessions.

As of December 31, 2022 and 2021, the Company uses as a valuation technique to estimate the recoverable amount, which uses a single cash flow scenario, the expected cash flow approach, which uses multiple probability-weighted flow scenarios.

This approach uses several cash flow projections considering the probabilities assumed of different events and/or scenarios instead of a single cash flow scenario. Although there may be several scenarios and probabilities, the Company considered that the three scenarios detailed below (base, positive and negative) reflect a representative sample of possible outcomes.

The calculations use cash flow projections that are based on financial budgets and business plans prepared by management and approved by the board of directors. Budgets and business plans are updated to reflect the most recent developments as of the reporting date. Management's expectations reflect performance to date and are based on its experience in times of recession and are consistent with assumptions a market participant would make. The calculations are based on studies carried out by

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

independent third parties specialized in the aeronautical industry. For the year ending December 31, 2021, the aforementioned calculations were prepared in conjunction with studies published by the International Civil Aviation Organization (ICAO). For the year ending December 31, 2021 and for the CGU, Airplan, which had not yet recovered the passenger levels it had in 2019, the aforementioned calculations were made based on studies published by the International Civil Aviation Organization (ICAO), which contemplated the economic impacts of COVID-19 and presented different recovery curve scenarios.

Due to specific circumstances of each market in which the Company operates, the following scenarios were considered appropriate:

Positive - For the development of the positive scenario of each of the CGUs, a greater growth in passenger traffic was contemplated based on the historical results of the Company as well as the prompt recovery that it had after COVID-19, that is, the Administration considered increasing within these scenarios a percentage applied to passenger traffic in each of the remaining years of the life of each of the concessions, in the case of Airplan and Aerostar for the year 2022 it was 5% for both CGU, for the year 2021 was 10% and 5% respectively, on the number of passengers of the baseline scenario.

Base - To construct the base scenario of each CGU, current effects on the industry impacting on each CGU were considered as well as the recovery and growth obtained from the studies performed by Management through specialized third parties of the industry.

Negative - For the development of the negative scenario of each of the CGUs, a lower flow in passenger traffic was considered, that is, the Administration considered reducing the base scenario by a percentage applied to passenger traffic in each of the remaining years of the period of life of each one of the concessions. In the case of Airplan and Aerostar for 2022 it was -5% for both CGUs, for 2021 it was -10% and -5% respectively, over the number of passengers in the base scenario.

The expected probability-weighted cash flow determined by the Company consisted of assigning a probability to the 3 scenarios mentioned above. The Company estimated a weighing for each of the scenario as follows:

	2022		2021	
	Airplan	Aerostar	Airplan	Aerostar
Negative scenario	15.00%	15.00%	20.00%	15.00%
Base scenario	75.00%	75.00%	70.00%	75.00%
Positive scenario	10.00%	10.00%	10.00%	10.00%
	<u>100.00%</u>	<u>100.00%</u>	<u>100.00%</u>	<u>100.00%</u>

No impairment was recorded in any of the CGUs under any of these 3 scenarios or under that of expected probability-weighted cash flows.

The assumptions used to estimate the recoverable amount are consistent with assumptions made by a market participant. For each CGU, the key assumptions for the base scenario were the following during 2022 and 2021:

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

	2022	
	Airplan	Aerostar
Discount rate	15.31%	10.21%
Operating costs and expenses annual average	4.00%	3.90%
Passenger growth rate in the recovery period of each CGU.	**	-

Average growth rate of passengers in the period after the recovery of passengers by each CGU.	4.79%	2.50%
Hierarchy level of the fair value of the recoverable value of the CGU	3	3

* This CGU recovered its passengers level during 2022, taking into account 2019.

	2021	
	Airplan	Aerostar
Discount rate	8.57%	9.26%
Operating costs and expenses annual average	3.00%	3.00%
Passenger growth rate in the recovery period of each CGU.	18.96%	*

* This CGU recovered its passenger levels during 2021, taking into account 2019.

Management has determined the values assigned to each of the above key assumptions as follows:

2022 and 2021

Assumption

Approach used to determine values

Discount rate

The after-tax discount rate was used from information of listed companies of the industry where each CGU operates.

Average growth rate for operating costs and expenses.

Average growth rate during the concession period, which is based on the latest period and projected inflation trends.

Growth rate of passengers (during the recovery period of each CGU) (assumption applicable in 2021 for the Airplan CGU, in 2022 it no longer applies to any CGU)

Weighted average growth rate of departing passengers during the recovery period aligned with industry growth.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

<u>Assumption</u>	<u>Approach used to determine values</u>
Growth rate of departing passengers (after the recovery period of each CGU).	Weighted average growth rate of departing passengers during the concession period aligned with operating and financial growth under a recovered economic environment in terms of passenger traffic.

For the year 2022, sensitivity analyses were applied to projections of each CGU as shown below.

Taking the base scenario and sensitizing the discount rate at +1% or -1% in each of the CGUs, the cash flow projections would have had an effect of recognizing an impairment and excess of \$843,424 and \$3,725,218 in Aerostar respectively and a excess of \$235,889 and \$424,719 in Airplan respectively. By sensitizing the discount rate in the weighted expected flow there are no significant variations compared to the baseline scenario.

Further, if the variables of the three scenarios remain constant, including the discount rate, and after the sensitivity analysis performed by the Company on the weighing allocated to each scenario, even considering the negative scenario al 100%, no impairment would be recorded in any of the CGUs.

For the year 2021, sensitivity analyses were applied to projections of each CGU as shown below.

Taking the base scenario and applying a sensitivity analysis to the discount rate by +1% or -1% in each CGU, cash flow projections would have generated an effect of an excess of \$61,088 and \$4,120,188, respectively in Aerostar, and \$258,900 y \$620,260 in Airplan, respectively. When making a sensitivity analysis on the discount rate of the expected probability-weighted cash flow, there are no significant variations compared with the base scenario.

Further, if the variables of the three scenarios remain constant, including the discount rate, and after the sensitivity analysis performed by the Company on the weighing allocated to each scenario, even considering the negative scenario at 100%, no impairment would be recorded in any of the CGUs.

8.2) Basic terms and conditions of the concessions

Mexico:

The basic terms and conditions of each concession are the following:

- a. The concession holder must undertake the construction, improvement, and maintenance of the facilities in accordance with its Master Development Plan (MDP) and is required to update the plan every five years. See Note 15.b
- b. The concession holder may only use the airport facilities for the purposes specified in the concession and must provide services in accordance with all applicable laws and regulations and is subject to statutory oversight by the SCT. The concession holder shall pay a DUAC (currently 5% of the gross income of the concession holder, resulting from the use of public assets in accordance with the terms of the concessions) as required by the applicable law. DUAC is presented in the consolidated income statement under "Cost of aeronautical services". See Note 4.
- c. Fuel services and fuel supply are to be provided by the Mexican Airport and Auxiliary Services Agency, a Decentralized Public Entity.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

- d. The concession holder must grant access to and the use of specific areas of the airport to government agencies to perform their activities inside the airports.
- e. The concession may be terminated if the concession holder fails to comply with certain of the obligations imposed by the concession as established in Article 27 or for the reasons specified in Article 26 of the Airport Law.
- f. Revenues resulting from the concession are regulated and subject to a review process. See Note 18.1.3.
- g. The terms and conditions of the regulations governing the operations of the Company may be modified by the SCT.

Aerostar:

The purpose of the Aerostar concession (Agreement) is to operate the public airport safely by maintaining the highest possible levels of safety and protection at the LMM Airport, and promoting, facilitating and improving commerce, tourism and economic development. The Puerto Rico authorities, Aerostar and the other airlines have agreed to the terms and conditions of the LMM Airport Facility Contract. The concession period is 40 years as of the closing of the agreement assigning the Airport's operating rights (February 27, 2013).

Under the Agreement, Aerostar has no rights to control in full the use of the Airport facilities, for example, airport facilities that are under the supervision of the port authority in Puerto Rico or internal or external security in certain areas and it is required to provide certain maintenance services within the airport.

As part of the Agreement, the authorities grant Aerostar the right to sublease the LMM Airport non-aeronautical areas and to collect and retain the fees, charges and payments and income arising from all subleased facilities.

According to the provisions of the Agreement, the Company has the right to collect the annual contributions of all airlines, which will be equal to the sum of the: a) platform use fees; b) landing fees; c) other leases, and d) international and domestic airport use fees.

The Agreement requires Aerostar to make a cash payment of USD\$2.5 million per year for the first five years, after the first five years, the authority establishes a payment of "Annual Authority Income Share", consisting of 5 % of the gross revenues of the airport obtained by Aerostar from the sixth year to the 30th year. From year 31st to 40th, this amount will increase to 10% of the airport's gross revenues.

Airplan:

The object of the concession contract is the granting by the Civil Aeronautics of Colombia and in favor of Airplan of the concession for the administration, operation, commercial exploitation, adaptation, modernization and maintenance of the airports Antonio Roldán Betancourt, El Caraño, José María Córdova, Las Brujas, Los Garzones, and Olaya Herrera.

The term of execution of the contract extends from the date of signing of the act of commencement of execution (May 15, 2008) and until the date on which one of any of the following events occurs:

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

- That the regulated revenues generated are equal to the expected regulated revenues, provided that by that time 15 years have elapsed from the date of execution of the certificate of commencement of execution.
- That 25 years have elapsed since the date of execution of the execution start certificate regardless of whether, for the time being, regulated revenues generated have not matched the value of the expected regulated revenues.
- If the regulated income generated equals the expected regulated revenue before 15 years have elapsed from the date of execution of the certificate of commencement of execution, the duration of execution of the certificate of commencement of execution and during this term the Concessionaire must execute all the obligations under his charge under the Concession Contract.

For purposes of the regulated revenue expected as defined in the concession contract, it must be taken into consideration that the expected regulated revenue will increase once each of the complementary works (mandatory or voluntary) is delivered to the grantor.

The Grantors agree to assign the regulated and unregulated revenues corresponding to each of the airports to Airplan.

The Concessionaire is obliged, with the grantor to pay, during the period of the Contract, a consideration equivalent to 19% of the gross income of the Concessionaire.

The Concession granted by virtue of this Contract imposes on the Concessionaire the general obligation to administer, make commercial use and operate the airports in accordance with the minimum specifications set forth in the Contract and at their own risk.

The determination of the economic useful life of the intangible is subject to the percentage of execution of the revenues with respect to the total expected income of the financial model that the Company has.

Contract of Trustee

For the administration of the resources of the Concession and the payment of the obligations in charge of the Concessionaire Airplan, it was forced to constitute a trust, to which it transfers all of its gross income received and all the resources of debt and capital that it obtains for the execution of the Concession.

The Trustee will maintain, in accordance with current accounting standards, a record of each and every one of the payments and transfers that are made to third parties or to the Concessionaire itself with charge to any of the accounts of the trust. The foregoing without prejudice to understand that the assignment of regulated income and non - regulated income that this agreement makes the Concession is made in favor of the Concessionaire and not the trust and that the debt and capital resources obtained by the Concessionaire should be adequately recorded as such in its own accounting and not in the Trust, since it is constituted solely for purposes of the administration of resources.

The constitution of the trust was made through the execution of an irrevocable mercantile trust and administration contract whose term will be the maximum authorized by Colombian commercial laws.

8.3) Subsequent measurement of the intangible asset

The Company will subsequently measure the intangible asset over its economic useful life at cost, less accumulated amortization, and impairment loss.

Note 9 - Accounts payable and accrued expenses:

At December 31, 2022 and 2021, the balances are as follows:

	Year ended December 31,	
	2022	2021
Suppliers	\$ 307,068	\$ 290,687
Taxes payable	574,311	311,847

As a result of the business combination in Airplan on October 19, 2017, a fair value of the syndicated loan, valued at its amortized cost, was determined, increasing its value by \$605,382. The debt contracted in the original currency (the Colombian peso) plus this adjustment to fair value will result in thousands of COP\$535,125,402 (\$3,408,442).

The variables used to determine the fair values of loans at December 31, 2022 and 2021 are as follows:

México:

2022 and 2021

- TIIE 28 days Discount Rate as of December 31, 2022 and 2021.
- Probability of default of ASUR as of December 31, 2022 and 2021.
- Default Swaps (CDS) of Mexico as of December 31, 2022 and 2021.

Level 2 of fair value hierarchy at December 31, 2022 and 2021.

Aerostar:

2022 and 2021

- Yield Spreads to Maturity through the BB-rating curve by "industrials sector" at December 31, 2022 and 2021.

Level 2 of fair value hierarchy at December 31, 2022 and 2021.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Airplan:

2022 and 2021

- Reference Discount Rate in Colombia as of December 31, 2022 and 2021.
- Probability of default of ASUR as of December 31, 2022 and 2021.
- Credit Default Swaps (CDS) of Colombia as of December 31, 2022 and 2021.

Level 2 of fair value hierarchy at December 31, 2022 and 2021.

Methodology:

The following methodology was used to determine fair value in the terms of IFRS 13. The valuation technique used is one recognized in the financial environment (estimated future cash flows discounted at their present value) using market information available at the valuation date.

Mexico:

In October 2017, the Company acquires a new loan with BBVA Bancomer of \$2,000,000 pesos, with a term of seven years, which will be amortized in nine semiannual payments from October 2020 to October 2024 at the TIIE rate of 28 days plus 1.25 points. On April 26, 2021, the Company made a principal payment of \$20,000 in accordance with the payment schedule. On October 13, 2021, the Company prepaid the loan amount that amounted to \$1,960,000 on that date, without any prepayment penalty.

On October 15, 2021, BBVA Mexico granted a simple loan for the amount of \$2,000,000 that can be used for corporate expenses with a term of 7 years, maturing in October 2028, at an annual interest rate equivalent to the TIIE rate to 28 days plus an applicable margin.

Applicable margin. - If the net leverage index x is a) Less than 1.5X, the applicable margin will be 1.40 basis points, b) Between 1.5X and 2.5X, the applicable margin will be 165 points and c) greater than 2.5X, the applicable margin will be 190 points.

In October 2017, the Company acquires a loan with Banco Santander for \$2,000,000. The loan has a term of five years, maturing on October 27, 2022 at the 28-day TIIE rate plus 1.25 points. On September 29, 2021, the Company advances the liquidation of the loan, without any prepayment penalty for \$2,000,000 and on that same date the loan for \$2,650,000 is approved and available, maturing on September 28, 2024, subject to one the 28-day TIIE rate plus 1.50 points. On November 29, 2022, the Company makes an advance principal prepayment of \$650,000 without any penalty.

In terms of the credits in pesos granted by BBVA Bancomer, the Company is obliged to maintain a consolidated leverage level not exceeding 3.5x calculated as a total financial debt between the (operating profit calculated before taxes, interest expenses, plus depreciation plus amortization at consolidated level) EBITDA for the twelve months prior to the end of each quarter and a minimum interest coverage of 3.0x, calculated as EBITDA between the financial expenses associated with the total financial debt for the 12 months before the end of each quarter. During the year the Company fulfilled these financial obligations, on each quarterly measurement date. At December 31, 2022 and 2021, the Consolidated Leverage Ratio calculated under the contract was 0.12x and 1.3x, respectively, which does not exceed the 3.5x established. In turn, the Debt Coverage Ratio at December 31, 2022 and 2021 was 19.3x and 12.2x, respectively, covering the minimum required of 3.0x as stated in the contract.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

In terms of the credit in pesos granted by Santander, the Company is obliged to maintain a leverage level on the last day of each fiscal quarter of no more than 3.5x and a minimum interest coverage ratio of 3.0x, both reasons calculated by the 12 months before each quarter. The calculation for the Leverage Ratio and Interest Coverage Ratio will be performed considering the Company's share in the income/loss of its subsidiaries and other companies in which it holds interest. During the year 2022 and 2021, the Company fulfilled these financial obligations, on each quarterly measurement date. At December 31, 2022 and 2021, the Leverage Ratio calculated under the contract was 0.12x and 0.3x, respectively, which does not exceed the 3.5x set. In turn, the Debt Coverage Ratio at December 31, 2022 and 2021 was 19.3x and 12.2x covering the minimum required of 3.0x as stated in the contract.

The Company must refrain from creating, incurring, assuming or generating the existence of any lien on its assets, assets and rights, as well as refraining from assuming obligations of third-party accounts, becoming jointly bound or granting a type of personal real guarantee or fiduciary to guarantee its own or third party obligations that are relevant or may have a significant adverse effect on the payment of the credit. During the year the Company fulfilled these financial obligations.

On June 29, 2020, the Company entered into a line of credit with BBVA Bancomer for \$1,500,000, for a term of eighteen months counted as from that date, thus falling due on December 29, 2021. The loan is subject to 28-Day Interbank Equilibrium Interest Rate (28 Day TIIE) plus 1.5%. Funds arising from this line of credit may be used for general corporate purposes, expenses and commissions relating to the loan. The Company did not use the funds arising from the credit line.

Airplan:

On June 1, 2015, the Company acquired a new long-term syndicated loan of COP\$440,000,000 (\$2,897,404) payable in 2027 with a three-year grace period for the payment of principal.

The participants of this syndicated loan are:

Financial obligations

Airplan is obligated throughout the term of the credit to comply with the following financial commitments:

Maintain long-term financial indebtedness limited to this syndicated loan operation: This consists of the sum of the balances payable by the debtor during the term of the syndicated loan, as a result of long- and short-term financial indebtedness, the amount of which may not exceed the sum of COP\$440,000,000 (\$2,897,404).

Maintain the capital structure: This addresses the relationship between capital and debt that the debtor must meet in relation to the project throughout the term of the loan, in such a way that the result of the financial indicator Capital 1 (Capital + debt) is equal to or higher than 16%.

Maintain the index of debt coverage: This refers to the indicator that the debtor must maintain during the entire term of the loan, defined as: $EBITDA - Taxes / Debt\ service\ 2: 1.2$.

Airplan obtained from all the banks participating in the syndicated loan the waivers necessary to comply with the coverage ratio indicator, up to the measurement date of the first quarter of 2021 and subsequently extended them until the first quarter of 2022. These waivers do not result in a sanction nor did they represent an expense or penalty to the entity. With these waivers described, the Company was covered for possible default and was exempted from any sanction or any negative effect in the event of breach of the debt coverage indicator until the measurement date of March 31, 2022. The Company complied with this debt coverage indicator on all measurement dates of 2022. As of December 31, 2022 and 2021, the Company has complied with the debt coverage indicator, which was 5.7x and 2.5x, respectively.

Aerostar

On April 1, 2020, the Company disposed of a revolving credit line with Banco Popular de Puerto Rico, approved as from December 18, 2015, for USD\$10,000 (approximately \$239,200) and, through amendment dated October 22, 2018 it received an extension for a maximum term of three years falling due on December 18, 2021, at a Prime or Fed Funds Rate less 0.50%, and whose prepayment can be made at any moment. The resources of this credit line can be used for working capital purposes and for investment projects. As of December 31, 2021, this loan was settled.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Aerostar was financially obligated throughout the term of the loan, to maintain a debt coverage ratio greater than 1.0x with the measurement date of each quarterly closing. During 2021, it complied with this debt coverage in each measurement period.

On December 30, 2020, Aerostar obtained an unsecured revolving credit line with Banco Popular de Puerto Rico for USD\$20,000 (approximately \$399,010), for a term of three years and the possibility of making prepayments at any moment during the term of the contract, with interest at Prime rate plus 0.50%. The Company will pay 0.15% for unused credit line, which will be calculated on the average amount of unused principal during the year. As of December 31, 2021, the credit had not been used and as of December 31, 2022, this line of credit is no longer available.

Note 11 - Short and long-term documents:

As a result of including Aerostar in the consolidation, as from May 31, 2017, the following long-term document payable is recorded.

To finance a portion of the agreement payment to the Puerto Rico Authority, and certain other costs and expenditures associated with it, Aerostar signed an agreement for the private placement of bonds on March 22, 2013 in the original amount of \$4,471 million pesos (USD\$350 million) maturing on March 22, 2035 in accordance with the following conditions:

Performance	2.39%
Spread credit (bps)	+336
Coupon	5.75%

On June 24, 2015, Aerostar signed an agreement for private placement of bonds in the original amount of \$737 million pesos (USD\$50 million), maturing on March 22, 2035, based on the following conditions:

Performance	6.75%
-------------	-------

In May 2022, Aerostar modified the payment method of the agreement signed for the placement of bonds for USD\$50 million, which stipulated payments on a semi-annual basis and was modified to a single payment due on March 22, 2035, which did not represent any penalty for the Company and qualified as a renegotiation.

In May 2022, Aerostar authorized the private placement of bonds for an original amount of \$3,947,522 (USD\$200 million) guaranteed with a quoted yield of 4.92% maturing on March 22, 2035, the disposition of the resources was in July 2022. Aerostar is financially obligated throughout the term of the bond, to maintain a debt coverage ratio greater than 1.0x with the measurement date of each quarterly closing. As of December 31, 2022, the debt coverage ratio was 1.7x.

At December 31, 2022 the long-term debt is shown as follows:

Directors, and Series B shareholders are entitled to appoint the remaining members of the Board of Directors. Series BB may not represent more than 15% of the Company's capital stock.

Legal reserve

The Company is legally required to allocate at least 5% of its unconsolidated annual net income to a legal reserve fund. This allocation must continue until the reserve is equal to 20% of the issued and outstanding capital stock of the Company. Mexican corporations may only pay dividends on retained earnings after the reserve fund for the year has been set up.

Reserve for acquisition of shares

The reserve for acquisition of shares represents the reservation authorized by the stockholders for the Company to purchase its own shares subject to certain criteria set forth in the bylaws and the Securities Market Law. At December 31, 2022 and 2021, the reserve for repurchase of shares totals \$11,554,572, respectively.

Dividends

In the Ordinary General Assembly held on April 20, 2022, the Company's shareholders agreed to pay an ordinary cash dividend of \$2,709,000, as well as to approve the payment of an extraordinary nominal dividend of \$1,800,000, in both cases they will not cause Income Tax (ISR) for coming from CUFIN and its payment was on June 1, 2022.

At the Ordinary General Stockholders' Meeting held on April 23, 2020, the Company's Stockholders agreed to delegate the power to decree and pay an ordinary dividend for \$2,463,000 (nominal) to the Administrative Board, which will not accrue Income Tax as they arise from the CUFIN (Net Tax Income Account). In case of approval, the dividend would be paid, in accordance with the decree of the Board as from May 11, 2021. On June 29, 2021, the Board of Directors approved the decree of dividends and their payment for October 1, 2021.

Dividends are tax free if paid from the CUFIN. Dividends paid in excess of the CUFIN balances are subject to tax equivalent to 42.86%. Tax due is payable by the Company and may be credited against IT for the year or IT for the two immediately following fiscal years. Dividends paid from previously taxed earnings are not subject to tax withholding or payment. Dividends paid that come from profits previously taxed by the ISR will not be subject to any withholding or additional tax payment. The Income Tax Law (LISR or ITL) establishes the obligation to maintain the CUFIN with the profits generated until December 31, 2013 and start another CUFIN with the profits generated as of January 1, 2014. At December 31, 2022 and 2021, the companies CUFIN lump sum is \$20,812,899 and \$17,347,482, respectively, whereas the combined contribution capital account (CUCA, by its initials in Spanish) amounts to \$53,329,606 and \$48,586,919, respectively.

In the event of a capital reduction, any excess of stockholders' equity over paid-in capital contribution account balances is accorded the same tax treatment as dividends, in accordance with the procedures provided for in the Income Tax Law.

Retained earnings

Substantially, all consolidated Company earnings were generated by its Subsidiaries. Retained earnings can be distributed to the Company's shareholders to the extent that the subsidiaries have distributed earnings to the Company.

Note 13 - Income tax incurred and deferred:

The Company does not consolidate its results for tax purposes.

a. Income Tax (IT)

Mexico

In 2022 and 2021, the Company determined tax profits together with its subsidiaries in the amounts of \$9,997,669 and \$6,045,955, respectively. In 2022 and 2021, the tax profits were partially offset with the amortization of tax losses in the amounts of \$127,046 and \$192,040, respectively, with the exception of Minatitlan Airport and RH Asur, whose tax losses for the year 2022 amount to \$36,296.

The subsidiaries that at December 31, 2022 and 2021, have not assessed income tax due to the tax loss carryforwards, are Cozumel, Minatitlan and Tapachula.

Taxable income differs from the book income due to temporary and permanent differences arising from the different bases for the recognition of the effects of inflation for tax purposes and from the permanent effects of items affecting only the book or tax results.

The ITL establishes that the applicable income tax rate is 30% on the taxable income.

The Company has performed the evaluation of the Preferential Tax Regimes and has determined at December 31, 2022 and 2021, it is not applicable because it does carry out a business activity, in the case of the investment in the airport of Puerto Rico, and that passive income does not represent more than 20% of its total income.

Aerostar

In 2022 and 2021, it determined taxable income of \$370,213 and \$88,577, respectively, which was partially offset by amortization of tax losses of \$333,191 and \$79,720, respectively. Aerostar maintains an agreement with the Puerto Rico Treasury Department, in which its operations are subject to Puerto Rico income tax of 10% under the provisions of Section 12 (a) of the Public-Private Partnership Act (Act) promulgated June 2009.

Airplan

The Company determined taxable income (liquid income) in accordance with the tax law of Colombia for the period at December 31, 2022 and 2021 of \$1,078,391 and \$241,490, respectively.

The Company is subject in 2022 and 2021 to income taxes in Colombia of 35% and 31%, respectively. The company determined an income tax of \$377,437 and \$74,862 in 2022 and 2021 respectively.

According to article 188, for income taxes purposes, it is presumed that the taxpayer's net income is not less than 3.5% of his net worth, on the last day of the immediately preceding taxable year. The percentage of presumptive income referred to in this article will be reduced to 0.5% in taxable year 2020; and at 0%, as of taxable year 2021.

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

14.4) Technical assistance agreement

With regard to the sale of series “BB” shares to ITA held in 1998, the Company signed a technical assistance agreement with ITA, whereby the latter company and its stockholders agreed to provide management and consulting services and transfer knowledge and experience in the industry and technology to the Company in exchange for compensation.

The agreement is for an initial term of 15 years and renews automatically for subsequent five year periods, unless one of the parts issues the other a cancellation notice within a determined term prior to the programmed expiration date. The Company can only exercise its termination right through a resolution of the shareholders. ITA began to provide its services under said contract on April 19, 1999.

In accordance with the contract, the Company agreed to pay an annual compensation equivalent to the higher of a fixed amount or 5% of the consolidated income of the Company before deducting the compensation for technical assistance and before the comprehensive financial result, IT, depreciation and amortization, determined in accordance with financial reporting standards applicable in Mexico. Beginning in 2003, the minimum fixed amount is of USD\$2 million (\$37.7 million pesos).

The minimum fixed amount will increase annually by the inflation rate of the United States plus the added value tax over the amount of the payment. The Company entered into an amendment agreement for technical assistance and transfer of knowledge, which establishes that the compensation will be paid on a quarterly basis beginning in January 1, 2008, and that such payments are to be deducted from the annual compensation.

At December 31, 2022 and 2021, the expenses for technical assistance amounted \$643,891 and \$391,698, respectively which are recorded in the consolidated comprehensive income statement within the aeronautical and non-aeronautical service cost line. ITA also has the right to refund the expenses incurred during the provision of the services specified in the agreement. The ITA BB series shares were put in a trust in order to ensure compliance with the technical assistance agreement, among other things.

Note 15 - Commitments and contingencies:

Commitments

- a. The Company began leasing office space on May 21, 2015, under a lease agreement. This agreement includes an available extension of 60 months. The monthly rent due is of \$30 (\$582 approximately).

The total minimum future payments derived from the non-cancellable lease agreement that shall be covered in the future are as follows:

Up to one year	\$ 7,472
Between one and three years	<u>9,963</u>
Total	<u>\$ 17,435</u>

At December 31, 2022 and 2021, the amortization for the right of use included within the aeronautical and non-aeronautical service cost in the statement of income, were approximately of \$5,457 and \$6,467, respectively. (See Note 17.8).

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

- b. On June 22, 2018, the Company received SCT approval for the PMDs for the five-year period from 2019 to 2023 in which the Company committed to carry out improvements.

On August 19, 2020, the Federal Civil Aviation agency approves the Company's request for rescheduling (deferral) of certain investments corresponding to 2020 for a total amount of \$2,292,355, to be fulfilled in 2021, due to the contingency for the COVID-19, which affected the conditions of the production and construction industry, interrupting the continuation of the works and signing new contracts that are indicated in the PMD 2019-2023.

On March 31, 2021, the AFAC authorized the reduction and modification of the Capital investments foreseen in the Master Development Plan (MDP), for the period of 2019-2033, regarding the review of maximum rates, without any penalty.

As of December 31, 2022, the investment commitments of this PMD are \$572,716, corresponding to the 2023 period, figures adjusted as of December 31, 2022 based on the Construction Price Index (IPCO) in accordance with the terms of the PMD.

- c. Pursuant to the terms for the purchase of the land in Huatulco that occurred in October 2008, the Company had the obligation to build 450 hotel rooms. As of December 31, 2020, there was an indefinite extension for this commitment issued by the National Fund for the Promotion of Tourism (FONATUR). During the second quarter of 2021, FONATUR paid the Company \$286,283 for the repurchase of the land in Huatulco, an amount that was the price that the Company initially paid for the land. As of December 31, 2021, there are no longer any obligations to be fulfilled by the Company in relation to this matter.
- d. As part of the Concession Agreement, Aerostar has committed to fund and complete certain capital and repair projects with respect to the LMM Airport Facilities. Aerostar has no time restrictions to complete these projects, except that they must be made at any time during the period of validity of the Concession Agreement. As these projects are carried out, repairs will be recorded as expenses incurred or capitalized and depreciated according to their nature; consistent with the Company's accounting policies. Capital projects will be capitalized as part of an intangible concession improvement asset and will be amortized over their useful lives or the remaining life of the concession agreement, whichever is less. Some commitments were excluded from the liability for initial obligations assumed due to factors of uncertainty, the variability of future costs and the extended period of time in which commitments can be fulfilled. As of December 31, 2022 and 2021, Aerostar fulfilled the agreed commitments.

Contingencies

As of December 31, 2022 and 2021, the Company has confirmed that the results of its lawsuits cannot be accurately predicted as their due processes are currently ongoing and there are not enough elements to determine whether they could largely affect the Company's financial position in the case of an adverse ruling.

- e. The Company's transactions are subject to Mexican Federal and State Laws as well as the Puerto Rico and Colombia Law due to its subsidiaries out of Mexico.
- f. At the time that the Company was carrying out the competitive bidding process (1998) for the sale of shares of the Airport Groups, the SCT established and communicated that concessionaires could amortize for tax purposes the value of the concession up to 15% a year. In February 2012, the SCT

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

estimated an amount due payable by Cancun in the amount of \$865 million pesos against the ruling in question, because it considered that the determination of the 15% amortization was not valid in 2006 and 2007. The Company disagreed with the decision and filed an appeal to overturn this determination. However, in order to adhere to the amnesty program set forth in Transitory Article Three of the new Income Law for 2013, the Company partially desisted from the appeal as it relates to the income tax obligation, but not in regard to the determination of the additional distribution related to employees' statutory profit sharing, which the Company continues to appeal. The risk is that if a judge does not rule in favor of Cancun the amount payable would be \$116 million pesos.

- g. There are currently a number of labor suits in progress against the Company, mainly in relation to involuntary termination. Any sentences that might be handed down not favoring the interests of the Company do not represent significant amounts. The Company is in legal proceedings at the date of this report and a resolution has not been issued yet.
- h. On August 21, 2019, the Board of Commissioners of the COFECE (Federal Economic Competition Commission) notified Aeropuerto de Cancún, S. A. de C. V. of the resolution issued on July 25, 2019, which provides for the following: (i) administrative liability for having exercised the monopolistic practices described in article 56, section V of the Mexican Federal Economic Competition Law ("LFCE") (refusal of access); (ii) the Company shall be imposed a fine of \$73 million pesos. On the understanding that there is sufficient grounds for defense, the Company has contested the administrative sanction imposed by the COFECE by filing *amparo* proceedings. The Company considers that the *amparo* proceedings will not be resolved in a term lower than two years from the date of filing, and, therefore, it is under no obligation to pay the fine before the end of such proceedings.
- i. On March 17, 2014, the Port Authority of Puerto Rico filed a lawsuit against Aerostar and two fuel sellers at the LMM airport claiming to be entitled to a certain fee charged to the sellers of aviation fuel distributed at LMM airport and not to Aerostar. On November 7, 2018 the court ruled a sentence in which it determined, among other things, that the income from the fee for the sale of aviation fuel at the LMM airport is from Aerostar; but authorizes the Ports Authority to charge two cents extra per gallon to importing sellers of said fuel. The parties appealed the determination and, on July 31, 2020, the Court of Appeals ruled in favor of Aerostar, determining, among other things, that Aerostar is the only entity entitled to collect and withhold the charge for each gallon of fuel of aviation that is dispatched at the LMM airport. On August 31, 2020, the Ports Authority went to the Supreme Court on appeal. On June 30, 2022, the Supreme Court of Puerto Rico issued a ruling in favor of Aerostar determining, among other things, that Aerostar is the only entity with the right to collect and withhold the charge for each gallon of aviation fuel that is dispatched at the LMM Airport. On December 22, 2022, Aerostar filed a joint motion with the Ports Authority for the withdrawal of funds consigned before the Supreme Court of Puerto Rico, which, through a declaratory judgment, granted Aerostar the right to collect a total amount of USD\$15,641 (approximately \$300,384) deposited by the oil sellers to the Accounts Unit of the honorable Court.

Note 16 - Basis for preparation:

The Company's consolidated financial statements as of December 31, 2022 and 2021 have been prepared in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board (IASB) and its interpretations issued by the IFRS Interpretations Committee (IFRS IC).

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

16.1) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis. Except for certain financial instruments measured at amortized cost or at their fair value as explained in the accounting policies described below.

The consolidated financial statements have been prepared under the going concern basis.

16.2) Use of estimates and judgments

The preparation of consolidated financial statements requires Management of the Company to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. The areas involving a higher degree of judgment or complexity, or the areas where assumptions and estimates are significant to the consolidated financial statements, are described in Note 19.

Critical estimates and assumptions are reviewed regularly. Adjustments to the accounting estimates are recognized in the period in which the estimate is reviewed and in any future period affected.

Note 17 - Summary of the main accounting policies:

17.1) New standards and amendments

Some of the modifications and improvements that came into effect as of January 1, 2022 were:

- Amendments to IFRS 3 - Minor amendments were made to IFRS 3 Business Combinations to update references to Conceptual framework for financial information and add an exception for the recognition of liabilities and contingent liabilities within the scope of IAS 37 Provisions, contingent liabilities and contingent assets and to Interpretation 21 Levies. Effective as of January 1, 2022.
- Amendments to IAS 37 Onerous contracts: cost of fulfilling a contract. Effective as of January 1, 2022.
- Annual improvements to IFRS 2018–2020 standards - The following improvements were completed in May 2020 and were effective as of January 1, 2022:
 - a) IFRS 9 Financial Instruments: clarifies what commissions and fees must be included in the 10% test for de recognition of financial liabilities.
 - b) IFRS 16 Leases: modification of illustrative example 13 to eliminate the illustration of the lessor's payments in relation to lease improvements, to eliminate any confusion on the treatment of lease incentives.

These modifications and improvements did not have a significant impact for the Company.

The Company considered in the preparation of the consolidated financial statements the agenda decision issued by the IFRS IC "Demand deposits with restrictions on use derived from a contract with a third party (IAS 7)" in April 2022.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

The modifications and improvements to the standards that are not effective for the annual periods ending on December 31, 2022 but later are the following:

- Amendments to IAS 1 - Non-current liabilities with covenant. Clarifying how the conditions that an entity must meet within twelve months after the reporting period affect the classification of the liability. Effective as of January 1, 2024.
- Amendments to IAS 1 and Practice Statement No.2 of the IFRS - Disclosure of Accounting Policies. Effective as of January 1, 2023.
- Amendments to IAS 8 - Definition of accounting estimates. Effective as of January 1, 2023.
- Amendments to IAS 12 - Deferred Tax related to assets and liabilities arising from a single transaction. Effective as of January 1, 2023.

These modifications are not expected to have a significant impact on the Company.

17.2) Consolidation and equity method

The Company did not change its proportional shareholding in Aerostar, maintaining control with 60% of the capital stock, therefore a disposal was not considered and the cumulative effects of conversion were not reclassified from comprehensive income.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

As regards the non-controlling interest in Aerostar's subsidiary, there are no significant restrictions on the possibility of gaining access to files or using them for the payment of liabilities.

Airplan Information

Airplan records and reports its financial information in IFRS as adopted in Colombia and their corresponding IFRIC issued by the IASB and in Colombian pesos. For purposes of consolidating Airplan in the Company, a conversion to Mexican pesos is performed. The exchange rate used at 2022 and 2021 year end was \$248.48 and \$198.28 Colombian pesos and Mexican pesos, respectively.

a. Subsidiaries

Subsidiaries are all entities over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances, revenues and expenses due to transactions between the group companies were eliminated. The non-realized results were also eliminated. The subsidiaries' accounting policies are consistent with the policies adopted by the Company. The Company uses the purchase method to recognize business acquisitions. The consideration for the acquisition of a subsidiary is determined based on the fair value of the net assets transferred, the liabilities assumed and the capital issued by the Company. The Company defines a business combination as a transaction in which it obtains control of a business, through which it has the power to govern and manage the relevant activities of the of assets and liabilities of said business with the purpose of providing return in the form of dividends, lower costs or other economic benefits directly to investors.

The consideration transferred in the acquisition of a subsidiary is the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Company. The consideration transferred includes the fair value of any asset or liability that results from a contingent consideration agreement. The identifiable assets acquired, the liabilities and contingent liabilities assumed in a business combination are initially measured at their fair value on the date of acquisition. The Company recognizes any non-controlling interest in the acquired entity based on the proportional part of the non-controlling interest in the net identifiable assets of the acquired entity.

Costs related to the acquisition are recognized as expenses in the consolidated statement of income as incurred.

Goodwill is initially measured as the excess of the consideration paid and the fair value of the non-controlling interest in the acquired subsidiary over the fair value of the identifiable net assets and the liabilities acquired. If the consideration transferred is less than the fair value of the net assets of the acquired subsidiary in the case of a purchase at a bargain price, the difference is recognized directly in the consolidated statement of income. If the business combination is reached in stages, the book value at the date of acquisition of the participation previously held by the Company in the acquired entity, is remeasured at its fair value at the acquisition date. Any loss or gain resulting from such remeasurement is recognized in the results of the year.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

b. Changes in the interests of subsidiaries without loss of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions, which are transactions with shareholders in their capacity as owners. The difference between the fair value of the consideration paid and the interest acquired in the carrying value of the net assets of the subsidiary is recorded in stockholders' equity. Gains or losses on the sale of non-controlling interests are also recorded in stockholders' equity.

c. Disposal of subsidiaries

When the Company loses control over one entity, any retained interest in the entity is measured at fair value, recognizing the effect in income. Subsequently, the fair value is the initial carrying amount for the purpose of determining the retained interest as an associate, joint venture or financial asset, as appropriate. Additionally, the amounts previously recognized in Other Comprehensive Income (OCI) relating to those entities are canceled as though the Company had directly disposed of the related assets or liabilities. This means that the amounts previously recognized in OCI are reclassified to income for the period.

d. Acquisition in stages

The additional acquisition in joint venture accounted under the equity method is considered a business combination conducted in stages, which means that the fair value of interest previously acquired was also revalued.

e. Joint arrangements

Under IFRS 11, investments in joint arrangements are classified as a joint operation or joint venture, according to the contractual rights and obligations of each investor, instead of the legal structure of a joint arrangement.

f. Joint ventures

Interest in joint ventures is accounted for using the equity method, subsequent to having been initially recognized at cost in the Consolidated Statement of Financial Position.

On February 20, 2020, our subsidiary Aeropuerto de Cancún entered into a contractual agreement with Aviation Investments, LLC, to set up a joint venture through a separate legal entity called Airport Development Group, LLC, with each Company holding an interest of 50%. Initial investment amounted to USD\$500 (\$10,556). According to the agreement, decisions on the relevant activities of the entity require unanimous consent of both parties. The Company assessed the nature of the transaction and determined it was a joint venture. Joint ventures are recognized through the equity method.

g. Equity method

Under the equity method, investments are initially recognized at cost and subsequently adjusted to recognize the share in income/loss after acquisition, as well as changes in other comprehensive income. Dividends received or receivable from joint ventures are recognized as a reduction in the carrying amount of the investment.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

When the Company's share of losses in a joint venture equals or exceeds its interest in the joint venture (which includes any long-term interest that, in substance, forms part of the Company's net investment in the joint venture), the Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the joint venture.

Unrealized gains from transactions between Group companies and its joint ventures are eliminated to the extent of the Group's interest in the joint venture. Unrealized losses are also eliminated, unless the transaction shows evidence that the asset transferred is impaired. Accounting policies on the investments recorded under the equity method have been changed where necessary to ensure consistency with the policies adopted by the Company.

h. Capital reduction in foreign subsidiaries

The capital reductions without change in the proportional percentage of shareholding of the parent, is not considered a partial disposition. Since the Group maintains the same ownership percentage and continues to control the subsidiary abroad, the cumulative effects of the translation effect are not reclassified to the statement of comprehensive income.

17.3) Conversion of foreign currencies

Functional currency and reporting currency

Items included in the consolidated financial statements of each of the companies of the Company are measured in the currency of the primary economic environment in which the entity operates, i.e., its "functional currency" which is also the reporting currency. The consolidated financial statements are presented in (thousands of Mexican pesos), which is the Company's functional and reporting currency.

17.3.1) Consolidation of subsidiaries with a functional currency different from the reporting currency

The results and financial position of Aerostar and Airplan (none of which handle a currency that corresponds to a hyperinflationary economy) expressed in a functional currency other than the reporting currency are converted to the reporting currency as follows.

- i. The assets and liabilities recognized in the consolidated statement of financial position are translated at the exchange rate on the balance sheet date.
- ii. The stockholders' equity in the consolidated statement of financial position is translated using the historical exchange rates.
- iii. Income and expenses recognized in the consolidated statement of income are translated at the average exchange rate for each year (unless that average is not a reasonable approximation of the effect of translating the results derived from the exchange rates prevailing at transaction dates, in which case the Company uses the respective rates).
- iv. The resulting exchange differences are recognized within OCI.

Goodwill and fair value adjustments that arise on the date of acquisition of a foreign operation to measure them at fair value are recognized as assets and liabilities of the foreign entity and are converted at the closing exchange rate.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

17.3.2) Transactions in foreign currency and results from exchange fluctuations

Operations carried out in foreign currency are recorded in the functional currency applying the exchange rates in effect at the transaction date or the exchange rate at the date of the valuation when the items are revalued.

Exchange differences arising from fluctuations in the exchange rates between the transactions and settlement dates, or the consolidated statement of financial position date, are recognized in the consolidated comprehensive income statement.

17.4) Cash and cash equivalents

Cash and cash equivalents include cash, bank deposits and other highly liquid investments with low risk of changes in value with immediate realization and original maturities of three months or less. As of December 31, 2022 and 2021, cash and cash equivalents consisted primarily of peso and dollar denominated bank deposits and peso denominated investment bonds issued by the Mexican Federal Government.

17.5) Fiduciary rights

For the administration of the resources of the Concession and the payment of the obligations in charge of Airplan a trust is constituted to which it transfers all the gross income received as remuneration of the contract and all the debt and capital resources obtained for the execution of the concession.

17.6) Restricted cash

Restricted cash is presented as current if it is expected to be used within 12 months of the filing date. Any funds restricted beyond 12 months are recorded as non-current. Restricted cash includes cash that is restricted as to immediate access and use. The nature of the restrictions includes pre-use approvals and restrictions imposed by bond placement contracts and federal agency funds related to capital spending.

Aerostar maintains cash restricted by requirement of the debt contracts in the amount of \$1,175,622 as of December 31, 2022 and PFC in the amount of \$96,485 and \$123,081 as of December 31, 2022 and 2021, respectively. Mexico maintains restricted cash of \$148,621 as of December 31, 2022 held as part of the fulfillment of its infrastructure investment commitments described in the PMD. See Note 5.1.

Restricted cash is presented in the statement of cash flows within financing activities in relation to the reserves to which it is obligated in accordance with the bond placement agreements and in investment activities, which are related to the investment in airport infrastructure. See Note 5.1.

17.7) Financial assets

- a. Classification. - the Company classifies its financial assets into the following measurement categories: a) financial assets measured at amortized cost; b) financial assets subsequently measured at fair value (either through other comprehensive income or through profit or loss). At present, the Company does not hold any financial assets. This classification depends on the business model of the Company to manage its financial instruments and the terms of the instrument's contractual cash flows. The Company reclassifies financial assets when, and only if, it changes its business model for the management of those assets. The Company's financial assets

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

are measured at amortized cost, since contractual terms comply with the SPPI (solely payment of principal and interest) requirement, and the Company's business model whose objective is achieved by collecting cash flows.

- b. **Measurement.**- At initial recognition, financial assets at amortized cost are measured at fair value plus transaction costs that are directly attributable to their acquisition. Transaction costs of financial assets measured at fair value (through profit or loss or through other comprehensive income) are recognized in profit or loss as incurred. Gains and losses on assets measured at fair value are recorded in profit or loss or in other comprehensive income. Financial assets with embedded derivatives are considered as a whole if it is determined that the cash flows correspond exclusively to the payment of principal and interest. Accounts receivable are non derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included as current assets, except for maturities greater than 12 months following the date of the Statement of Financial Position. These are classified as non-current assets. Loans and accounts receivable are initially recognized at fair value plus directly attributable transaction costs, and subsequently measured at amortized cost.
- c. **Impairment.** - Impairment losses are presented as net impairment losses within the operating result. Subsequent recoveries of previously canceled amounts are credited against the same line. For accounts receivable, the Company applies the simplified approach allowed by IFRS 9, which requires that the expected losses over the life of the instrument be recognized from the initial recognition of accounts receivable. See Note 6.

17.8) Leasing

17.8.1) As lessor

The leasing of terminal space made by the Company in its capacity as lessor at the terminals is documented by contracts with either fixed income or monthly fees based on the higher amount of a minimum monthly fee or a percentage of the lessee's monthly revenue.

Since the leased assets are part of the concession assets and thus do not belong to the Company, there is no transfer of the risks and rewards of ownership and therefore are classified as operating leases.

Revenues from operating leases are recognized in the statement of comprehensive income as non-aeronautical revenues on a straight line basis over the lease term.

17.8.2) As lessee

Leases are recognized as right-of-use assets and lease liabilities on the date the leased assets are available for use by the Company.

Right-of-use assets and liabilities arising from a lease under IFRS 16 "Leases" are initially measured at the present value. Lease liabilities include the present value, net of the following lease payments: i) fixed lease payments, less any lease incentive receivable; ii) variable lease payments that depend on an index or a rate, initially measured using the index or rate at the commencement date; and iii) the amounts that the Company expects to pay under residual value guarantees.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Lease payments must be discounted at the rate implicit in the lease. In the case of the Company, it is not feasible to easily determine the interest rate, so the lessee's incremental borrowing rate is used, which is the rate that the individual lessee would have to pay to borrow the necessary funds to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the borrowing incremental rate, the Company:

- Uses, whenever possible, recent third-party financing received by lessee as a starting point, adjusted to reflect changes in financing conditions since third-party financing was received.
- Uses other approaches, starting with a risk-free rate, adjusted for the credit risk of leases held that have not obtained recent third-party financing; and
- Applies specific adjustments to the lease, e.g. term, country, currency and guarantees.

Lease payments are distributed among principal and interest expense. Interest expense is charged to profit or loss over the lease term to produce a constant periodic interest rate on the remaining liability for each period.

Right-of-use assets are measured:

- Lease initial measurement amount
- Any lease payment made on or before the commencement date less any lease incentive received.
- Any initial direct cost.

Right-of-use assets are generally depreciated on a straight-line basis over the shorter period of the asset useful life and the lease term, and the depreciation expense is recognized in the Income Statement.

Payments of short-term leases and leases of low-price assets are expensed by applying the straight-line method. Short-term leases are leases with a term of 12 months or less.

To determine the lease term, the Company considers all facts and circumstances creating an economic incentive to exercise an extension option. The reasonable certainty assessment is only reviewed when there is a significant event or a significant change in circumstances that affect such assessment and that are within lessee's control. At December 31, 2021, there are no contracts regarding which there is a reasonable certainty to extend lease terms.

17.9) Land, furniture and equipment

Furniture and equipment are recorded at cost less accumulated depreciation and impairment loss. The cost includes expenses directly attributable to the acquisition of those assets and all costs associated with placing the assets in the location and in the condition necessary for them to operate as intended by Management.

Land is recorded at cost and it is not depreciated. Depreciation of other items of plant and equipment is calculated on the straight-line method based on the residual values over their estimated useful lives. The useful lives at the acquisition date of the furniture and equipment are as shown below:

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

	December 31,	
	2022	2021
Furniture equipment	10 a 20%	10 a 20%
Machinery	10 a 20%	10 a 20%
Computer equipment	20 a 33%	20 a 33%
Transportation equipment	20 a 25%	20 a 25%
Improvements to leased premises	10%	10%

The residual values, useful life and depreciation method are reviewed and adjusted, if necessary, on an annual basis.

17.9.1) Land

Land represents a territorial extension for which the Company had an obligation of constructing 450 hotel rooms along with the National Tourism Fund (FONATUR in its acronym in Spanish) in Huatulco which were recorded at its cost and are not subject to depreciation. FONATUR and the Company entered into a purchase agreement, returning FONATUR to the Company \$286,283, which was the price the Company initially paid for the land. See Note 15.c

17.10) Intangible assets

17.10.1) Concessions

The airports that are part of the Company performed the analysis of the criteria that must be taken into account to know if they are within the scope of IFRIC 12:

- a. The grantor controls or regulates what services the operator must provide with the infrastructure, to whom it must provide them at what price.
 - The grantor does not need to have full price control; it is sufficient that the price is regulated by the grantor, the contract or the regulator.
 - The grantor can control the price through a limit mechanism.
 - The price can vary from fixed price arrangements to those based on a formula up to a maximum price.
- b. The grantor controls, through ownership, the right of benefits or otherwise, any significant residual interest in the infrastructure at the end of the term of the agreement.

Taking into consideration the foregoing, these criteria are applicable to each of the concessions that the Company has, that is why it is considered that their measurement and determination will be within the scope of IFRIC 12. In addition to that at the end of all the concessions all assets become the property of the nation in which the concession is located.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Within the scope of IFRIC 12, the respective assets can be classified as:

- Financial assets: when the licensor establishes an unconditional right to receive cash flows and other financial assets independently of the use of the public service by the users.
- Intangible assets: only when the licensor agreements do not establish a contractual right to receive cash flows and other financial assets from the licensor, independently of the use of the public service by the users. Airport concessions have been considered within the scope of IFRIC 12 as an intangible asset because they comply with the above provisions and no financial assets have been recognized in that regard.

Mexico:

Rights to use airport facilities and airport concessions include the acquisition of the nine airport concessions and the rights acquired.

Amortization is computed using the straight-line method over the estimated useful life of the concessions, (original term of 50 years as of November 1, 1998); 26 years as of December 31, 2022.

Aerostar:

The airport concession right, which includes certain capital expenditures in improvement projects, the intangible asset is recognized at cost less accumulated amortization and impairment losses.

Amortization is calculated using the straight-line method during the term of the agreement (40 years); 30 years as of December 31, 2022.

Airplan:

In the case of Airplan, the right granted by the Concession Contract No.8000011-OK and Public Tender No.10000001OL2010, respectively, is recorded as intangible, through which the grantors assign to the Company the regulated and unregulated income corresponding to each of the airports subject of the concession.

In turn, the costs per loan that are related to the works in execution are part of the intangible.

The intangible asset resulting from the recognition and updating of the estimated income of the contract is amortized based on the proportion of the accumulated income of the contract and the total income. Amortization is recognized in the results of the period.

The useful life for amortization was determined as the duration of the concession and amortization is calculated on a linear basis based on the years in which the recovery of the expected income from the financial model that the Company has is expected. The minimum term of the concession is the year 2015; however, in accordance with the complementary works carried out and the measurement of the expected income against the income generated, the concession will have a minimum useful life until the year 2032, or 10 years from December 31, 2022.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements

December 31, 2022 and 2021

17.10.2) Licenses, commercial direct operation (ODC, by its acronym in Spanish) and commercial rights

These items are recognized at their cost less the accrued amortization and any recognized impairment losses. They are amortized on a straight line basis using their estimated useful life, determined based on the expected future economic benefits, and are subject to testing when indication of impairment is identified. The useful lives are linked to the useful life of the concessions See Note 17.10.1.

The estimated remaining useful lives at December 31, 2022 are as follows:

Licenses Mexico	26 years
ODC Mexico	26 years
Commercial Rights of Aerostar	30 years
Commercial Rights of Airplan	10 years

17.10.3) Goodwill

Goodwill represents the acquisition cost of a subsidiary in excess of the Company's interest in the fair value of the identifiable net assets acquired, determined at the acquisition date, and it is not subject to amortization. Goodwill is shown separately in the consolidated statement of financial position and is recorded at cost less accumulated impairment losses, which are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

17.10.4) Intangible assets acquired as part of a business combination

When an intangible asset is acquired as part of a business combination, it is recognized at fair value at acquisition date. Subsequently, intangible assets acquired in a business combination, such as commercial rights, are recognized at cost less the accumulated amortization and the accrued amount of impairment losses, see useful lives of these rights in note 17.10.2.

17.11) Impairment of long term non-financial assets

The long term non-financial assets subject to amortization or depreciation are subject to annual impairment tests or more frequently if there are events or circumstances that indicate that they might be affected. Other assets are subject to impairment tests when events or circumstances arise that indicate that their book value might not be recovered. Impairment losses correspond to the amounts where the book value of the asset exceeds their recoverable amount. The recoverable amount of assets is the higher of the fair value of the asset less the costs incurred for its sale and value in use. For impairment assessment purposes, assets are grouped at the lowest levels at which they generate identifiable cash flows separately which are largely independent of the cash flows of other assets or the Company's assets (cash-generating units). Impaired non-financial assets other than goodwill are reviewed to determine the possible reversal of impairment at the end of each reporting period.

17.12) Accounts payable

Accounts payable are liabilities with creditors for purchases of goods or services acquired during the regular course of the Company's operations. When payment is expected over a period of one year or less from the closing date, they are presented under current liabilities. If the foregoing is not complied with, they are presented under non-current liabilities.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Accounts payable are initially recognized at their fair value and are subsequently measured at amortized cost using the effective interest method.

17.13) Bank loans and long term debt

Loans from financial institutions and long-term debt are initially recognized at their fair value, net of transaction costs. Those funds are subsequently recorded at their amortized cost; any difference between the funds received (net of transaction costs) and the redemption value is recognized in the statement of income during the funding period using the effective interest method.

17.13.1) Debt renegotiation

If the renegotiation results in the cancellation of the original liability because the 10% test is exceeded, the original liability is canceled and any difference is recognized in results when the renegotiation occurs.

If the renegotiation does not result in the cancellation of the financial liability, the value of the new cash flows of the financial liability is calculated, discounted at the original effective interest rate, any difference between the discounted value and the carrying amount is recognized in results and the effective interest rate is prospectively adjusted to include the new costs and commissions.

17.13.2) Costs for loans

Costs for specific and general loans directly attributable to the construction of qualifying assets are capitalized during the period of construction and preparation of the asset for its use. Qualifying assets are those that require a substantial period to be ready and able to be used (usually greater than one year). Financial revenues obtained from temporary investments made with money coming from specific loans that will be used for the construction of qualifying assets are decreased of financial costs eligible for capitalization.

The capitalization of costs for loans in foreign currency that generates interests and losses due to foreign exchange fluctuations, are only capitalized up to the amount of interest that would have been generated by loan in national currency, with similar conditions of time.

17.14) Derecognition of financial liabilities

The Company derecognizes its financial liabilities if, and only if, the obligations of the Company are met, are cancelled or if they expire.

17.15) Provisions

Liability provisions represent a present legal obligation or an assumed obligation as a result of past events when the use of economic resources is likely in order to settle the obligation and when the amount can be reasonably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of expenses expected to cover the related obligation, using a pretax rate that reflects the actual considerations of the value of money market over time and the specific risks inherent in the obligation. The increase in the provision over time is recognized as an interest expense.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

When there are similar obligations, the likelihood of the outflow of economic resources for settling those obligations is determined considering them as a whole. In these cases, the provision thus estimated is recorded, provided the likelihood of the outflow of cash with respect to a specific item considered as a whole is remote.

17.16) Deferred IT, and tax on dividends

The expense for IT includes both the current tax and deferred taxes. Tax is recognized in the statement of income, except when it relates to items recognized directly in OCI or in stockholders' equity in which case, the tax is also recognized in OCI items or directly in stockholders' equity, respectively.

Deferred IT were recorded based on the comprehensive method of liabilities, which consists of recognizing deferred taxes on all temporary differences between the book and tax values of assets and liabilities to be materialized in the future at the enacted or substantially enacted tax rates in effect at the consolidated financial statement date. See Note 13.

Deferred tax assets are only recognized to the extent that it is probable future tax profits are expected to be incurred against which temporary differences can be offset.

The balances of deferred income taxes, assets and liabilities are offset when there is an enforceable legal right for each entity to offset current tax assets against current tax liabilities and when deferred income tax assets and liabilities are related to the same tax authority.

Current IT is made up of IT, which is recorded under income for the year in which they are incurred. The tax is based on taxable income.

To determine the IT the applicable rate in Mexico for 2022 and 2021 was 30%, the applicable rate for Airplan, according to Colombian legislation for 2022 and 2021 was 35% and 31% respectively, and the applicable rate for Aerostar, in accordance with the Puerto Rico legislation for 2022 and 2021 was 10% respectively.

Deferred tax assets and liabilities from the temporary differences arising from the investments in subsidiaries and joint businesses are recognized, except when the Company controls the reversal period for such temporary differences and it is likely that the temporary differences will not be reverted in a near future.

Aerostar and Airplan hold undistributed profits which, if paid as dividends, would require the beneficiaries to pay tax. There is a temporary taxable difference, but no deferred tax liability is recognized, as the Company as the controlling entity is capable of deciding the point at which the subsidiary should make distributions, and it is not expected to distribute those benefits in the foreseeable future, because both companies would first have to pay off their bank or private debts before they can declare dividends.

17.17) Employee benefits

The present value of the defined benefit obligations is determined by discounting the estimated future cash flows using the interest rates of high-quality corporate bonds denominated in the same currency in which the benefits will be paid and that have expiration terms that are approximate the terms of the pension obligation. In those countries where there is no deep market for such bonds, interest rates on government bonds are used.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of the plan assets. This cost is included in the expense for employee benefits in the consolidated statement of income.

Gains and losses for remeasurements derived from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur directly in OCI. They are included in the accumulated results in the statement of changes in stockholders' equity and in the consolidated statement of financial position.

Variations in the present value of the defined benefit obligation that result from modifications or reductions of the plan are recognized immediately in results as past service costs.

Termination benefits

Termination benefits are paid when the employment relationship ends before the normal retirement date or when an employee voluntarily accepts the termination in exchange for these benefits. The Company recognizes termination benefits on the first of the following dates: (a) it is committed to terminate the employment relationship of employees in accordance with a detailed formal plan without having the possibility of evading its obligation, and (b) when the entity recognizes restructuring costs in accordance with IAS 37 and involves payment of termination benefits. In the case of an offer that promotes voluntary termination, termination benefits are valued based on the expected number of employees accepting the offer. Benefits that mature 12 months after the reporting date are discounted to their present value. The charge to income for the years ended December 31, 2022 and 2021 was \$4,343 and \$2,866, respectively. See Note 4.

Short-term obligations

Salaries for wages and salaries, including non-monetary benefits and accumulated sick leave, which are expected to be fully settled within 12 months after the end of the period in which the employees provide the related service, are recognized in connection with the service of employees until the end of the period and are measured by the amounts that are expected to be paid when the liabilities are settled. Liabilities are presented as current obligations for employee benefits in the consolidated statement of financial position.

Share in profits

The Group recognizes a liability and an expense for profit sharing based on a calculation that takes into account the profit attributable to the shareholders of the Company after certain adjustments. The Group recognizes a provision when it is contractually bound or when there is a past practice that generates an implicit obligation.

17.18) Stockholders' equity

Capital stock, capital reserves and retained earnings are expressed at their historical cost. The capital reserves consist of the legal reserve, the reserve to repurchase own shares.

17.19) Basic and diluted earnings per share

Basic earnings per share were computed by dividing the net income for the year attributable to controlling interest (\$9,986,548 and \$5,983,747) by the weighted average number of shares outstanding in 2022 and 2021. The number of shares outstanding for the periods from January 1 to December 31, 2022 and 2021 were 300 million. The basic ordinary earnings share for the year ended as of December 31, 2022 and

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

2021 was \$33.29 y \$19.95, respectively, are expressed in pesos, the diluted earnings per share is equal than the basic earnings per share.

17.20) Financial reporting by segments

The segment financial information is presented in a manner that is consistent with the internal reporting provided to the General Directors in charge of making operational decisions, allocating resources and assessing the performance of the operating segments.

The Company determines and evaluates the performance of its airports on an individual basis, after allocating personnel costs and other costs of services, which are incurred by a Company's subsidiary which hires some of the Company's employees. The performance of these services is determined and assessed separately by management. All the airports provide substantially the same services to their clients. The performance of (Services) is determined and evaluated separately by the Company. All airports provide substantially the same services to their customers. Note 2 includes the financial information related to the Company's different segments, which includes Cancun and subsidiaries (Cancun), showing separately due to its importance Aerostar and Airplan, respectively, the Aeropuerto de Villahermosa (Villahermosa), the Aeropuerto de Mérida (Mérida), and Services. The financial information of the remaining six airports of RH Asur, S. A. de C. V. and of the holding company (including the investment of the Company in its subsidiaries) has been grouped and is included in the "Others" column. The elimination of the investment of the Company in its subsidiaries is included in the "Consolidation Adjustments" column.

Resources are assigned to the segments based on the significance of each one to the Company's operations. Transactions among operating segments are recorded at their fair value.

17.21) Revenue recognition

The accounting policies for the Company's revenue from contracts with customers are explained in Note 3.

17.22) Government grants

Government grants are recognized at their fair value when there is reasonable guarantee that the grant will be received, and the Company will comply with all the conditions set.

Government grants associated with income are presented in the period's income/loss as deductions of the related expenses. Grants received as compensation for expenses or to provide immediate financial support to the entity, with no related subsequent costs, are recognized in income/loss for the period in which they become payable.

Government grants associated with assets are presented in the Statement of Financial Position as deductions of the carrying amount of related assets. They are recognized in income/loss throughout the life of the asset, which is amortized as a reduction of the related expense that the grant intends to offset.

Government grants will be recognized in income/loss on a systematic basis throughout the periods in which the entity recognizes the related costs that the grant intends to offset as expenses.

Note 4.1 discloses information on how the Company records government grants received as recovery of expenses.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Note 18 - Financial risk management:

The Company is exposed to financial risks that result from changes in interest rates, foreign exchange rates, price risk, liquidity risk and credit risk. The Company controls and maintains the treasury control functions related to transactions and global financial risks through practices approved by its Executive Board and Board of Directors.

This note contains information regarding the Company's exposure to each of the aforementioned risks, and the objectives, policies and procedures to measure and manage risk.

The main risks to which the Company is exposed are:

- 18.1) Market risk
 - 18.1.1) Interest rate risk
 - 18.1.2) Exchange rate risk
 - 18.1.3) Price risk
- 18.2) Liquidity risk
- 18.3) Credit risk - credit quality
- 18.4) Capital management
- 18.5) Fair value

18.1) Market risk

18.1.1) Interest rate risk

The Company has contracted bank loans to partially finance its operations. These transactions expose the Company to interest risk, with the main exposure to the risk of variable interest rates resulting from changes in the market base rates (banks charge interest based on TIIE 28 days plus 1.25 points in 2022 and 2021 that were applied to the Company's bank loans maturing in 2022 and 2024 which were paid in advance. As of September 2021, the Santander bank charges interest based on the 28-day TIIE rate plus 1.50 points maturing in 2024, and as of October 2021, the BBVA Mexico bank charges interest based on the 28-day TIIE rate plus an applicable margin that fluctuates between 1.40 to 1.90 points with expiration in 2028.

As of December 31, 2022, the reference rates used by the Company (TIIE and DTF) have suffered considerable increases compared to the year that ended on December 31, 2021, due to the economy and the impact of higher inflation. Despite the uncertainty caused by interest rates, although there is a risk of an increase in interest rates, the Company has cash of 7.05 times to pay the amount of debt and short-term loans.

As of December 31, 2022 and 2021, there are no LIBOR loans.

18.1.2) Exchange rate risk

The Company is exposed to minor risk for changes in the value of the Mexican Peso against the U. S. Dollar. Historically, a significant portion of income generated by the Company (mainly derived from the fees charged to international passengers) are denominated in U. S. Dollars, and despite that, income is invoiced in Pesos at the average exchange rate of the previous month and likewise the cash flows are collected in Pesos.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

At December 31, 2022 and 2021, the Company is exposed to exchange rate risk for monetary position, as follows:

	<u>December 31,</u>	
	<u>2022</u>	<u>2021</u>
Monetary position:		
Assets	\$ 372,991	\$ 124,656
Liabilities	<u>(5,520)</u>	<u>(7,580)</u>
Monetary active position:	<u>\$ 367,471</u>	<u>\$ 117,076</u>

At December 31, 2022 and 2021, the exchange rate was \$19.47 and \$20.47, respectively. Had the currency weakened by 5% in 2022 (5% in 2021) with respect to the U.S. Dollar, the Company would have had a gain on monetary position at the close in the amount of \$357.8 million in 2022 (monetary gain of \$119.8 million in 2021). As of March 9, 2023, the date of issuance of this report, the last known exchange rate was \$18.01

18.1.3) Price risk

The rate regulation system applicable to the airports of the Company imposes maximum rates for each airport, which should not be exceeded on an annual basis. The maximum rates are the maximum annual income per unit of traffic (one passenger or 100 kg of cargo). If the maximum annual rate is exceeded, the government authorities could revoke one or more of the Company's concessions in Mexico.

The Company monitors and adjusts its income on a regular basis in order for its annual invoicing not to exceed the maximum rate limits. In the case of the Aerostar and Airplan concessions, there are no maximum ceilings established by the corresponding Government.

Concentrations:

At December 31, 2022 and 2021, approximately 59.1% and 55.5%, of revenue, not including income from construction services, resulted from operations at the Cancun International Airport.

18.2) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its funding requirements. The Company's Management has established policies, procedures and limits of authority that govern the Treasury function. Treasury is responsible for ensuring liquidity and managing the working capital to ensure payments to suppliers, debt servicing and funding of operating costs and expenses.

The Company is cautious about liquidity risk and maintains sufficient cash and negotiable instruments and the availability of financing through an adequate amount of credit facilities to meet obligations at maturity and settle trading positions. At period end on December 31, 2022, the Company had demand deposits amounting to \$13,174,991 (\$8,770,062 in 2021) and as of December 31, 2021 an available credit line amounting to USD\$20,000 (approximately \$389,430), to manage liquidity risk, which as of December 31, 2022 is no longer available. Due to the dynamic situation and current uncertainty, the Company's Treasury function maintains flexibility in the funding under credit lines and keeping availability.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Company's Management controls changes in its liquidity reserves forecast (including unused credit lines) and cash and cash equivalents based on expected cash flows. In general, this is conducted at country level for operating entities of the Company according to practices and limits set. These limits vary in each country, taking into account the liquidity of the market in which the Company operates. Additionally, the Group's policy on liquidity management includes cash flows projections in the main currencies and the consideration of the necessary level of liquid assets to meet these projections; the control of liquidity ratios of the Statement of Financial Position regarding the internal and external regulatory requirements, and the maintenance of the debt financing plans.

The following table shows the liquidity position for each country where the Company operates.

December 31, 2022

	<u>Cash and cash equivalents</u>	<u>Loans and Short - term Debt</u>	<u>Loans and Long - term Debt</u>	<u>Total Loans and Debt</u>
México	\$ 9,573,039	\$ 1,486,817	\$ 2,505,318	\$ 3,992,135

18.3) Credit risk - credit quality

The financial instruments that are potentially subject to credit risks consist mainly of accounts receivable. Income obtained from fares charged to passengers is not guaranteed and therefore the Company faces the risk of not being able to collect the full amounts invoiced in the event of insolvency of its clients, which are the airlines. The Company frequently reviews financial instruments and tests them for impairment. See Note 6.3.

The Company agreed with several clients in support of the economic recession caused by COVID-19, the negotiation to extend the payment terms by signing promissory notes with a term of no more than one year, and guaranteed payment with promissory notes, as of December 31, 2021, the balance of the accounts receivable from third parties for Mexico amounts to \$4,463. As of December 31, 2022, these documents are settled. See Note 6.2.

In recent years, there have been no airlines that have reported substantial losses, in addition to this, the income of passenger fees from the main client airlines, not all of them are guaranteed by guarantee or other type of guarantee. Therefore, in the event of insolvency of any of the airlines, the Company would have no certainty of recovering the total sum of amounts invoiced to the airlines for passenger fees. In August 2010, Grupo Mexicana filed for bankruptcy. Grupo Mexicana owes the Company \$128,000 for passenger fees. As a result of Grupo Mexicana's bankruptcy, the Company has increased, in that moment, its reserve for uncollectable accounts by \$128,000. The Company has determined that it may not be able to collect that amount. See Note 6.3.

The Company operates under three methods to collect from Airlines:

- a. Credit, mainly offered to airlines with which there is a history of frequent and stable flights,
- b. Advances, from airlines with reasonably stable flights or that are in the exploration stage of routes or destinations, and
- c. Cash, mainly offered for Charter flights and airlines with new flights.

With this segregation, the Company reduces its collection risk since the airlines that operate under methods b) and c) do not generate accounts receivable.

Cash and cash equivalents are not subject to credit risks since the amounts are kept at financial institutions of good standing, and investments are subject to lower significant risk as they are being backed by the Mexican Federal Government or institutions with AAA high market ratings.

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

18.4) Capital management

The objective of Management is to safeguard the Company's ability to continue operating as a going concern in order to provide returns for stockholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

These activities are monitored through the review of information pertaining to the Company's operation and the Industry. This effort is coordinated by the CEO. Through a planning method, detailed simulations are formulated of identified risks as they are known. The risks identified are valued in terms of probability and impact and are presented to the proper authorities. The result of all these activities is reported to the market through 20-F reports, the sole circular and quarterly reports by a by an Investment Committee that analyzes, among others, financial risks.

During the year, there was no material uncertainty regarding the Company's ability to continue as a going concern. At December 31, 2022 and 2021, the Company's Board has a reasonable expectation that the Group has the appropriate resources to continue operating at least for the next twelve months and that the use of the going concern basis of accounting is appropriate.

18.5) Fair value

Financial instruments (bank loans and long term debts), at amortized cost in accordance with the valuation method used are at level 2 in 2022 and 2021, there are no financial instruments carried at fair value.

The different levels have been defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for instruments, identical or similar, in non-active markets and valuations through models where all significant data are observable in the active markets.

Level 3: Asset or liability input that is not based on observable market data (i.e., non-observable).

The fair value of financial instruments traded in active markets is based on market prices quoted at the consolidated statement of financial position closing date. A market is considered active if quotation prices are clearly and regularly available through a stock exchange, trader, dealer, industry group, price fixing services, or regulatory agency, and those prices reflect regularly and on current bases the market transactions under independent conditions. The quoted price used for the financial assets held by Company's is the current offer price.

Note 19 - Critical accounting judgments and key sources of estimation uncertainty:

In applying the Company's accounting policies, which are described below, Company Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities. Estimates and assumptions are based on historical experience and other factors considered relevant. Actual results could differ from those estimates.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

Critical accounting judgments

Significant information on assumptions, critical judgments and uncertainty estimations recognized in the consolidated financial statements are as follows:

19.1 Revenue.

19.2 Useful life of the Airplan concession.

19.3 Evaluation of impairment of intangible assets, airport concession and goodwill.

19.1 Revenue

As mentioned in Note 18.1.3, the Company regularly monitors and adjusts income so as to avoid exceeding the maximum rate at each of the airports operated by the Company in Mexico, which is the annual maximum income per traffic unit that can be received, and therefore the amount that the Company can record for services rendered whose prices are regulated.

If the Company recognized income exceeding that maximum rate, the authorities could cancel one or more airport concessions. Therefore, the Company regularly monitors regulated income in Mexico to ensure it does not exceed the limit. The application of the procedure established in the concession titles for determining maximum rates and securing the necessary information are complex procedures. Among the information used in determining the maximum rate is passenger traffic and cargo statistics, in addition to variables such as the National Producer Price Index excluding oil, authorized rates for airport services and the Rate for Airport Use.

19.2 Useful life of the Airplan concession

The term of execution of the contract extends from the date of signing of the act of commencement of execution and until the date on which one of any of the following events occurs:

- That the regulated revenues generated are equal to the expected regulated revenues, provided that by that time 15 years have elapsed from the date of subscription of the certificate of execution.
- That 25 years have elapsed since the date of execution of the execution start certificate, regardless of whether, at the time, the regulated revenues generated have not matched the value of the expected regulated revenues.
- If the regulated income generated equals the expected regulated income before 15 years have elapsed from the date of execution of the certificate of execution, the duration of the execution of the contract will be, in any case, 15 years.

It must be taken into account, for purposes of the regulated revenues expected according to the definition of the concession contract, that the expected regulated revenue will increase once each of the complementary works (mandatory or voluntary) is delivered to the grantor. The useful life for the amortization was determined as the duration of the concession and the amortization is calculated on a linear basis based on the years in which the recovery of the expected income of the financial model held by the Company is expected. The minimum term of the concession is the year 2022; however, in accordance with the complementary works carried out and the measurement of the expected income against the income generated, the concession will have a minimum useful life until the year 2032, and in accordance with the legal terms, the Concession may extend until 2048.

Grupo Aeroportuario del Sureste, S. A. B. de C. V. and subsidiaries

Notes to the Consolidated Financial Statements December 31, 2022 and 2021

The Company conducts sensitivity analysis to determine the level of possible changes in the assumptions used to determine the useful life of the concession change significantly. At December 31, 2022 and 2021 the expected total revenues considering the additional works amount to \$12,634,029 and \$14,381,166 respectively.

19.3 Evaluation of impairment of intangible assets, airport concession and goodwill

Intangible assets and airport concessions are assessed for impairment whenever events or changes in circumstances indicated that the value of intangible assets could be impaired, and at least once a year in the case of goodwill. To determine whether the value of intangible assets and goodwill has been impaired, the cash generating unit relating to the intangible asset and goodwill has to be valued using present value techniques. By applying this valuation technique, the Company is based on a series of factors, including historical results, business plans, forecasts and market data. This is further described in Note 8.1. As can be deduced from this description, changes in the conditions of these judgments and estimates can significantly affect the assessed value of intangible assets and goodwill.

Item I e)

Annual Report of the Audit Committee of Grupo Aeroportuario
del Sureste, S.A.B. de C.V.
corresponding to year 2022

**Annual Report of the Audit and Corporate Practices Committee
to the Board of Directors and Shareholders of
Grupo Aeroportuario del Sureste, S.A.B. de C.V.**

In accordance with the provisions of Articles 42 and 43 of the Mexican Stock Market Law and the Regulations of the Audit and Corporate Practices Committee, I hereby present my report of the activities carried out during the year ending the 31st of December 2022. In the performance of our duties, we adhered to the recommendations set forth in the Code of Best Business Practice and, as the company is registered on the stock markets of the United States of America, the provisions contained in the Sarbanes-Oxley Act. We held sessions on at least a quarterly basis and, according to an established work programme, carried out the activities described below:

RISK ASSESSMENT

We periodically assessed the effectiveness of the Risk Management System established to detect, measure, record, evaluate, and control risks in the Group, and implemented follow-up procedures that ensure that the system functions efficiently. The Risk Management System was assessed to be sufficient.

In conjunction with Management and the External and Internal Auditors, we reviewed the critical risk factors that might affect the Group's operations or assets. It was determined that such risk factors, and their implications for the internal auditor's work programme, have been appropriately identified, assessed, and managed.

CIBERSECURITY

In light of the significant risks associated with unauthorised access to the information systems of the Group, and with the continuity of operations in the information technology area, we placed special focus on this matter during our meetings. We sought external support to be reasonably confident that adequate controls have been implemented for access to information technology systems, and which ensure the continuity of operations in data-processing areas.

INTERNAL CONTROL

We verified that the Management, in compliance with its responsibilities and on the basis of the Group's risk assessment, has established the necessary processes for the implementation and enforcement of an appropriate system of internal controls. Additionally, we followed up on the comments and observations made in relation thereto by both External and Internal Auditors, in the performance of their duties.

We evaluated the steps taken by the Company to comply with Section 404 of the Sarbanes-Oxley Act relating to the self-assessment of internal controls carried out by the Company, and which it has the obligation to report on for the year 2022. During this process, we followed up on the preventive and corrective measures implemented with regard to internal-control aspects that require improvement.

EXTERNAL AUDITING

We issued a recommendation to the Board of Directors for the engagement of the Group's External Auditors for the year 2022. In order to do so, we first checked that the firm was independent and complied with the requirements set forth in the law and in the general guidelines applicable to entities and issuers supervised by the Mexican National Banking and Securities Commission that retain external auditing services in relation to their basic financial statements. We analysed the External Auditors' approach and work programme together with them, as well as their coordination with the Internal Auditing Department, and received the required reports at the appropriate times.

We reviewed the work programme of the External Auditors and its coordination with the Internal Auditing Department.

We maintained constant, direct communication with the External Auditors to remain apprised of the progress made in their activities and the observations they had, and we took due note of their comments regarding their review of the quarterly and annual financial statements. We were informed of their conclusions and reports regarding the annual financial statements and we followed up on the implementation of the observations and recommendations they made in the performance of their duties.

We authorised the fees paid to the External Auditors for auditing services and other permissible services, and ensured that the latter did not interfere with the firm's independence from the Group.

We assessed the services provided by the External Auditors in the previous year, taking into account the opinions of Management, and we began the performance-assessment process for the year 2022.

INTERNAL AUDITING

In order to ensure independence and objectivity, the Internal Auditing Department reports functionally to the Audit and Corporate Practices Committee. Below is a description of the activities we carried out:

1. At the appropriate time, we reviewed and approved the Department's annual work programme and budget. To prepare the work programme, the Internal Auditor participated in the process of identifying risks and establishing and testing the controls required for compliance with the Sarbanes-Oxley Act. Consequently, we also approved the annual budget and functional structure of the department.
2. We received regular reports of progress made on the approved work programme, as well as deviations from the programme and the factors that caused them.

3. We followed up on the observations and suggestions made by the Internal Auditor and their implementation.
4. We ensured that an annual training plan was in place.
5. We began the assessment process for the Internal Auditing Department for the year 2022.

FINANCIAL INFORMATION, ACCOUNTING POLICIES AND THIRD-PARTY REPORTS

In conjunction with the company officers responsible for their preparation, we reviewed the Company's quarterly and annual financial statements and issued recommendations to the Board of Directors for them to be approved for publication. As part of this process, we took into account the opinion and observations of the External Auditors and we verified that the accounting and reporting criteria and policies used by Management in the preparation of financial information were adequate and sufficient and were applied on a consistent basis in comparison with the previous year. Consequently, the information presented by Management reasonably reflects the Company's financial situation, operating results and changes in financial standing for the year ending the 31st of December 2022.

We also reviewed the quarterly and annual reports prepared by Management for presentation to stockholders, authorities, and the general public, and we checked that these were prepared according to international accounting standards, using the same accounting criteria as those used for the annual statements. As part of our inspection, we were satisfied that an integral process exists, which provides a reasonable degree of security regarding the content of financial reports. To conclude, we recommended that the Board approve the reports for publication.

Our reviews included all reports and other financial information required by regulatory bodies in Mexico and the United States of America.

COMPLIANCE WITH REGULATIONS, LEGAL ASPECTS AND CONTINGENCIES

We confirmed the existence and reliability of the controls established by the Company to ensure compliance with the different legal provisions that it is subject to, and ensured that they were adequately disclosed in financial reports.

We periodically reviewed the different fiscal, legal, and labour contingencies that exist in the Company, we verified the effectiveness of the procedure established to identify and follow up on them, and we oversaw the appropriate registration and disclosure thereof.

CODE OF ETHICS

With the support of the Internal Auditing Department, we verified compliance by the Company's staff with the Code of Ethics in place in the Group. We also checked that appropriate processes existed for it

to be updated and communicated to staff, and that the corresponding penalties were applied in those cases where violations of the Code were detected.

We reviewed the reports received via the system established by the Company for this purpose, and ensured that they were followed up on in an appropriate and timely fashion.

RELATED-PARTY TRANSACTIONS

We verified that transactions with related parties were the result of the Company's business requirements, were performed at market values and were clearly disclosed in financial statements. For this, we received support from the Internal Auditing Department.

ASSESSMENT AND COMPENSATION OF RELEVANT EXECUTIVES

The Board of Directors has established a Nominations and Compensations Committee responsible for, among other things, submitting proposals to the Board of Directors regarding the appointment, assessment and total annual compensation of the Chief Executive Officer and other relevant executives in the Company. The Committee was duly informed of the levels of compensation proposed for the year 2022.

ADMINISTRATIVE ASPECTS

Meetings were held between the Committee and Management in order for us to keep abreast of developments and significant or unusual activities or events within the Company. We also met with the External and Internal Auditors to comment on the progress of their activities and any limitations that they may have had, and to facilitate any private communications they may have wished to have had with the Committee.

When considered advantageous, we requested the support and opinions of independent experts. We have had no knowledge of any possible significant violations of operating policies, the system of internal controls or accounting policy.

We held executive sessions with the exclusive participation of the Committee members, during which we established agreements and recommendations for Management.

Our reviews included the reports and other financial information required by regulatory bodies in Mexico and the United States of America.

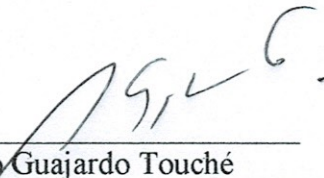

The Chairman of the Audit Committee reported on activities carried out to the Board of Directors on a quarterly basis.

We verified the Company's compliance with the resolutions passed at the Annual General Meeting of the Company's shareholders.

We verified compliance by the Committee's financial expert with the requirements in terms of education and professional experience, and by all members of the Committee with the requirements in terms of independence, as stipulated in the applicable regulations.

The activities we carried out were duly documented in minutes prepared for each of the five meetings we held, which were reviewed and approved in a timely fashion by the members of the Committee.

Sincerely

Ricardo Guajardo Touché
Chairman of the Audit and Corporate Practices Committee
21st February 2023

Report on Other Legal and Regulatory Requirements
Report on Review of Taxpayer's Fiscal Situation

To the Board of Directors and the Shareholders of Grupo Aeroportuario del Sureste, S.A.B. de C.V.

To the Ministry of Finance and Public Credit

To the Tax Administration Service (Servicio de Administración Tributaria or SAT)

To the Major Taxpayers Department

1. I am issuing this report in relation to the audit I have carried out in accordance with International Auditing Regulations (NIAs) of the financial statements prepared by the management of Grupo Aeroportuario del Sureste, S.A.B. de C.V., as required under Article 32-A of the Federal Tax Code (Código Fiscal de la Federación or CFF); Article 58, Sections I, IV and V, of the Regulations of the CFF (Reglamento del CFF or RCFF); Rules 2.10.6, 2.10.14 and 2.10.15 of the Miscellaneous Tax Resolution for 2022 (Resolución Miscelánea Fiscal or RMF); and the instructions for data calculations and characteristics and guidance formats for the presentation of reports on audited financial statements for tax purposes contained in Appendix 16 of the RMF. An audit conducted in accordance with NIAs provides a reasonable degree of assurance; however, it does not guarantee detection of any possible omissions, errors or acts that might constitute the commission of a tax offence, as it is not designed for that purpose.

Based on the audit I performed, I issued an audit report with unqualified opinion, dated the 13th of July 2022.

2. Exclusively with reference to the matters mentioned in this Section 2, I hereby provide a sworn statement, in accordance with Article 52, Section III, of the CFF; Articles 57 and 58, Section III, of the RCFF; and Rule 2.10.15 of the RMF, to the effect that: as part of my audit, as described in Section 1 above, I reviewed additional information and documentation prepared by and under the responsibility of the Company, in accordance with Article 32-A of the CFF; Article 58, Sections I, IV and V, of the RCFF; Rules 2.10.6, 2.10.7 and 2.10.14 of the RMF; and the instructions for data calculations and characteristics and guidance formats for the presentation of reports on audited financial statements for tax purposes contained in Appendix 16 of the RMF, which has been presented via the Tax Report Presentation System 2021 (SIPRED) over the Internet to the SAT. I audited this information and documentation using selective testing, according to the auditing procedures I considered appropriate under the circumstances, based on my professional opinion. I believe that the audit evidence I have obtained provides a sufficient and appropriate basis that supports my opinion, as per NIAs, with regard to the financial statements as a whole. This information is attached for the analysis and exclusive use of the Major Taxpayers Department. On the basis of my audit, I hereby state the following:

- i. As part of the selective testing carried out in compliance with the NIAs, I reviewed the fiscal situation of the taxpayer, as defined in Article 58, Section V, of the RCFF, for the period covered by the audited financial statements. Within the scope of the selective testing I performed, I ascertained that the goods and services acquired or provided for use or usufruct by the Company during the year were in fact received, issued or rendered, respectively. In accordance with Section II of Rule 2.10.15 of the RMF, the procedures I applied did not include reviews of compliance with customs or external-trade provisions.

My audit documentation contains evidence of the auditing procedures applied for each item sampled, which support the conclusions obtained.

- ii. On the basis of selective testing and the NIAs, I verified calculation and payment of the federal taxes incurred during the year, including taxes payable by the taxpayer as a direct subject and taxes payable as a withholder.

Due to the fact that the Company has no employees, there is no requirement to pay social security contributions to the Mexican Social Security Institute (Instituto Mexicano del Seguro Social or IMSS) arising from wages and salaries.

- iii. During the year under review, I was not made aware of any requests issued by the taxpayer for rebates or compensation of balances in credit. As of the 31st of December 2021, no sums are pending rebate or compensation.
- iv. In accordance with their nature and the application methods used in previous years, as applicable, I also verified the concepts and sums contained in the following appendices:
 - Reconciliation between accounting and tax results for the purpose of calculating income tax (Impuesto Sobre la Renta or ISR), and
 - Reconciliation between the revenues audited according to the profit and loss statement, taxable revenues for the purposes of ISR, and the total resulting from all activities for the purposes of value-added tax (Impuesto al Valor Agregado or IVA) corresponding to the year ending the 31st December 2021.
- v. During the period, I was not made aware of the presentation by the taxpayer of any complementary tax returns that modified the information submitted in previous periods, or resulted from tax differences during the period under audit.
- vi. Due to the fact that the Company has no employees, Worker Profit Shares were not calculated or paid out.
- vii. Using selective testing, I reviewed the balances of the accounts indicated in the appendices on the comparative analysis of expense sub-accounts and on the comparative analysis of integral-financing-results sub-accounts, and reconciled, when applicable: a) differences with base financial statements arising from reclassification for presentation, and b) the calculation of deductible and non-deductible sums for the purposes of ISR.
- viii. I reviewed the information relating to the fiscal stimuli applied, tax exemptions, subsidies and credits, and the application of resolutions obtained from tax or jurisdictional authorities, as included in the statements made by the legal representative of the taxpayer.
- ix. During the period, the Company did not have any joint liability for withholding taxes as a result of any sale of shares carried out by parties resident abroad.
- x. During the period under audit, exchange-rate losses due to fluctuations in foreign currencies were not part of my remit, due to the fact that they are immaterial in the context of the financial statements taken as a whole.
- xi. The sums of the transactions carried out by the Company with its main related parties during the year ending the 31st of December 2021 are stated in Note 8 of the financial statements, attached as the appendix "Notes to the Financial Statements" in SIPRED. The transactions with related parties carried out during the period are stated in the appendix "Transactions with Related Parties" in SIPRED.

As part of my random testing, I reviewed compliance with the obligations relating to transactions with related parties, as required under the following provisions: Articles 11, 27, Section XIII, 28, Sections XVII, paragraph four, point b), XVIII, XXVII, and XXIX, and 76, Sections IX, X and XII of the Income Tax Law.

- xii. During the period ending 31st December 2021, the Company disclosed information in the SIPRED General Information Appendix relating to the application of certain criteria different to those that may have been published by the tax authorities in Subsection h) of Section I of Article 33 of the CFF in force as of the 31st of December 2021. In the appendix in question, the taxpayer stated that said criteria had not been applied during the period ending 31st December 2021.

xiii. As part of my selective testing, I reviewed the information disclosed by the taxpayer in the informative representations presented in the following appendices of the Multiple Informative Statement, without observing any omissions therein:

- Appendix 76, Section VI, of the Income Tax Law “Information on Foreign Residents” (Appendix 4 of the DIM).
- Article 9 of the Transitional Provisions of the Income Tax Law for 2014, section X, “Information on Payment and Withholding of ISR, IVA and IEPS” (Appendix 2 of the DIM), referring to withholdings on payments made to parties resident abroad. Appendix 76, Section III, of the Income Tax Law “Information on Withholdings on Foreign Residents Stated on CFDIs”.

Other Matters

3. My responses in relation to the tax diagnosis and transfer pricing questionnaires that are included in the information in SIPRED are based on the results of my audit of the base financial statements of Grupo Aeroportuario del Sureste, S.A.B. de C.V. as of the 31st of December 2021 and for the year leading up to that date, taken as a whole, which was performed according to NIAs. Consequently, the responses that indicate compliance with tax regulations by the taxpayer are based on: a) the results of the audit that I performed on the basis of NIAs, or b) the fact that during the audit I performed in accordance with NIAs, I reviewed and did not detect any instances of non-compliance on the part of the taxpayer with its fiscal obligations.

Some of the responses to questions in the tax diagnosis questionnaire and the transfer pricing questionnaire were left blank, due to the fact that: 1) they are not applicable to the Company, 2) there is no possible answer, or 3) the information was not reviewed as it did not fall under the scope of my audit, which does not constitute non-compliance with tax provisions.

4. Regarding the responses that the Company has provided to the tax diagnosis and transfer pricing questionnaires included in the appendices “General Information” and “Taxpayer Information on Transactions with Related Parties”, respectively, which form part of the information included in SPIRED, I have reviewed these responses and verified that they are consistent with the results of the audit I performed in accordance with NIAs.

Consequently, the responses that indicate compliance with tax obligations by the taxpayer are supported by the fact that during the audit I performed, I reviewed and detected no instances of noncompliance with the tax obligations referred to in the questionnaires.

Certain questions require information that is not part of the base financial statements, and consequently the responses were provided by the taxpayer and do not fall under the scope of my audit.

5. As of the 31st of December 2021, no material differences were identified that must be disclosed in the column “Non-Material Differences Not Investigated in Audit” in Appendix “List of Contributions Paid by Taxpayer as Direct Payer and as Withholder”.

Item II a)

Proposal for application of retained earnings of Grupo Aeroportuario del Sureste, S.A.B. de C.V. as of yearend 2022;
Proposal to increase legal reserve

Grupo Aeroportuario del Sureste, S.A.B. de C.V.
Proposal to increase legal reserve

Under Mexican law, ASUR and each of its subsidiaries are required to set aside a minimum of 5% of net annual profits to increase the legal reserve until it reaches the equivalent of 20% of the outstanding capital stock (historical) of the company in question. Mexican companies may only pay dividends from retained earnings after the legal reserve has been set aside.

Consequently, in 2023 ASUR will have to increase the legal reserve by **Ps. \$256,834,347.18 (two hundred and fifty-six million, eight hundred and thirty-four thousand, three hundred and forty-seven pesos and eighteen cents, Mexican legal tender)**, with the corresponding deduction from accumulated retained earnings from 2022.

It should be noted that this proposal has been approved by the Company's Strategic Partner, the Company's Operations Committee, and the Company's Board of Directors.

Proposal for application of retained earnings of Grupo Aeroportuario del Sureste, S.A.B. de C.V. as of yearend 2022;
Proposal of maximum amount that may be used by the Company to repurchase shares in 2023

Grupo Aeroportuario del Sureste, S.A.B. de C.V.
**Proposal of maximum amount that may be used by the Company to
repurchase its shares in 2023**

ASUR's management proposal for the maximum amount that may be used by the Company to repurchase its own shares in 2023, in order to support liquidity in the market, is **Ps. \$3,750,238,410.22 (three billion, seven hundred and fifty million, two hundred and thirty-eight thousand, four hundred and ten pesos and twenty-two cents, Mexican legal tender).**

It should be noted that this proposal has been approved by the Company's Strategic Partner, the Company's Operations Committee, and the Company's Board of Directors.
